Annexure 10	:	MOM of Hon'ble Chairman APGCL review meeting on 111022
Annexure 11	:	Compensation Already Paid and Grievances Closed
Annexure 12	:	Spot of Plot could not identify, and Grievances also Closed
Annexure 13	:	Short Report on awareness on Health and Hygiene 23-24 Sep 22
Annexure 14	:	Attendance Sheet H&H Awareness at Longku High School 230922

EXECUTIVE SUMMARY

1. The Lower Kopili Hydroelectric Power (LKHEP) presently under implementation would serve the growing demand for electricity in the state of Assam, sustain a healthy share of renewable energy in the Assam grid, and assist in moderating the delivered cost of power for distribution companies. The proposed LKHEP will use the hydropower potential of the Kopili River, a south bank tributary of the Brahmaputra River. LKHEP is designed to operate as a run-of-river power plant with diurnal storage with a total capacity of 120 megawatts (MW) comprising a main plant rated at 110 MW and an auxiliary plant rated at 10 MW. The main plant would receive water diverted at the dam to be built in Longku on Kopili River, while the auxiliary power plant is located at the bottom of the dam at Longku, using water released at the bottom of the dam to maintain the minimum river flow downstream of Longku.

2. Assam requires additional generating capacity to fulfil the needs of the state to uplift the state economy, to serve the unmet needs of existing customers, and to complete the household electrification. This additional generating capacity being of lower cost, allowing the state to continue to maintain the present generation costs, or even reduce such costs. Compared with oil, gas and coal, the three other primary energy options available to Assam to enhance its generating system, hydroelectric generation provides a lower cost, and environmentally less polluting resource. LKHEP fulfils a portion of such needs. With several hydropower plants planned, amidst increasing capacity of thermal generation, Assam can maintain the share of hydropower capacity in the range of 33%, which is higher than the national average for hydropower capacity.

3. The Project affects 17 villages under the jurisdiction of two autonomous districts (Dima Hasao and Karbi Anglong) with 1214 tribal Families respectively. The Project will acquire 1,577 hectares (Dima Hasao Revenue Land -909, and Forest land 478 Hectares, Karbi Anglong Revenue Land - 45 and Forest Land - 145 Hectares) of land of which about two-thirds are leaseholds and the remaining of land are state forests. The Project is in a 'non-cadastral' area, that is, no land or revenue records are available other than the data on the leased land parcels to tribal persons. All affected lands in the two ADC are classified as either patta (registered) land or as non-patta land or 'village commons. Farmers cultivate paddy under rain-fed conditions on some of the patta land which have been obtained on a long-term lease (5 years or more). On non-patta lands which have been obtained on short-term lease (one year) villagers' practice jhum (slash-and-burn) cultivation. The leaseholds are also classified by the land use type such as paddy land, dry land, jhum land (slash and burn) land, and homesteads. In Karbi Anglong Autonomous District, some land is in the category of 'plantations' where cash crops such as bananas are cultivated.

4. There are various mitigation measures adopted for the Project in terms of entitlements at both household level and community level. The entitlement matrix of the CRTDP summarizes the entitlements of the affected families and communities. It aims not only to compensate land losses and restore livelihoods and sources of income of the affected Families but also to improve them. The key mitigation measures proposed at household levels are cash compensation for land

and crops acquired; resettlement of physically displaced Families; families income restoration and improvement; infrastructure and other amenities at the resettlement site. The mitigation measure proposed at community level is the local area development program.

5. APGCL has already disseminated resettlement information among the Affected Families (AF) through public meetings, calling AFs representatives to Guwahati for Project meetings and to meet Government of Assam (GoA) and Autonomous District Councils (ADC) officials. The APGCL held several meetings in the project area with the support of Lower Kopili Hydro Electric Power Project Affected Persons' Associations (LKHEPPAPA) and Gaon Bura of the villages to create awareness about the Project among the potential AFs. It will disseminate more resettlement and income restoration and improvement information among all AFs through brochures, leaflets, and booklets written in local languages. For non-literate people, other communication methods such as small group discussions and posters will be used to disseminate Project and resettlement information. The summary draft CRTDP has been translated into Assamese language and has been disseminated to the AFs in the form of leaflet in April 2018 during consultations.

6. PMC was already recruited to assist APGCL in implementing the project. Additionally, APGCL has already been hired an implementing NGO to assist Social and Environmental Safeguard Cell (SESC) in safeguard implementation, especially the implementation of livelihood restoration and improvement programs. The main objectives to engage the NGO (a) to update the socioeconomic surveys for all the AFs based on the final design and final list of AFs, and will update the draft CRTDP; (b) design an environmental and social management system for the implementation of the CRTDP; (c) improve the monitoring framework with accurate monitoring indicators for safeguard performance monitoring; (d) update socioeconomic baseline information; (e) undertake field studies, if required, to fill in gaps in socioeconomic databases; and (f) assist the establishment of the grievance redress mechanism and its operations.

7. External Monitoring Consultant (M/s Feedback Infra Private Limited, AQUALOGUS – Engenharia e Ambiente, Lda. & Jade Consult Pvt. Ltd. and JFPR implementation agency M/s RMSI are also onboard and has started the monitoring and support to the APGCL.

8. The present semi-annual social monitoring report is covering period from July to December 2022. All the progress achieved in implementation of CRTDP have been captured in this report.

CHAPTER 1. INTRODUCTION

1.1 BACKGROUND

9. The purpose of this semi-annual Social Monitoring Report (SMR) is to monitor the progress of Combined Resettlement and Tribal Development Plan (CRTDP) and record social, economic, and cultural aspects of the proposed Lower Kopili Hydro Electric Project (LKHEP) area and its affected communities. The SMR will also cover the progress and achievements in implementation of Gender Action Plan. A key monitoring area of the report is to obtain the Affected Families (AFs) to benefit from the Project; and to restore and improve their livelihoods and sources of income. It is also examining the institutional arrangements for delivering entitlements and project benefits to the AFs and other stakeholders. Function of GRC and the adopted mechanism for resolving grievances and complaints will also be briefed in the SMR.

10. The executing agency (EA) of LKHEP is Assam Power Generation Corporation Ltd (APGCL). It pays for land acquisition and compensation, relocation of the AFs, and their income restoration and improvement. APGCL through its PMU, PMC and implementing NGO will be implementing the CRTDP.

1.2 SCOPE OF REPORT

11. Prior to initiation of civil works, the social impact was assessed and classified as per ADB SPS 2009 as Category 'A' for both Involuntary Resettlement and for Indigenous Peoples. The compensation and entitlement matrix are based on the resettlement planning documents of 2018. The payment of compensation has been made to most affected families in Dima Hasao District. The Socio-economic and census survey has not yet been initiated in the Karbi Anglong District due to certain unavoidable circumstances- of which restrictions on inter district movement due to COVID situation is the major one. The scope of this semi-annual report is to explore the progress of the resettlement (IR) and assess the status of the RP implementation. The prerequisite of the internal social safeguard monitoring activities is focusing on the status of implementation of the social safeguard issues, effectiveness in implementation of the social program and provision of feedback and suggestions for the full compliance with ADB and Government of Assam rules and regulations.

1.3 DESCRIPTION OF PROJECT

12. The Assam State Electricity Board (ASEB), The Northeastern Electric Power Corporation (NEEPCO), and APGCL have contributed to the development of plan for Kopili River Valley in 1980. The GoA in 2006 appointed APGCL to finalize the project plan and implement it. A DPR was prepared, and clearance obtained from various directorates including from the Central Electricity Authority (CEA) and Central Water Commission (CWC).

13. The dam proposed to be built at Longku will be a concrete gravity dam, of height 70 meters (m) and width 345 m. The crest of the dam will be 232.5 m above mean sea level (MSL). The dam will create a reservoir at Longku with a spread of 552 hectares (ha), with live storage of 77 million cubic meters. A tunnel will be excavated to deliver the water from the reservoir to the

main power plant. Water from the intake to the main power plant enters the tunnel of diameter 6.65 m on the right bank of the Kopili River. This tunnel will be 3.6 kilometre (km) long. At the end of this low-pressure tunnel, water will enter the pressure shaft. The pressure shaft will be circular of 5.2 m diameter, steel lined, with a length of 704 m. The pressure shaft will deliver water to two steel penstocks each of length of about 60 m, which in turn would convey water to the turbines. Water to the auxiliary power plant will be taken directly along a steel-lined circular pressure shaft of diameter 2.7 m and of length 70 m, and delivered to the turbine through three steel penstocks, each about 30 m long. The designed discharge capacity is 112.7 cubic meters per second (m/s), at a flow velocity of 3.13 m/s.

14. The Kopili River is a tributary of the Brahmaputra River. It originates in the Borail Hill Range of Meghalaya, the catchment of the Kopili River lies on the leeward side of the Borail, Khasi and Jaintia Hill ranges. Good amount of rainfall keeps it as Perennial River. Lower Kopili Hydro-Electric Project (LKHEP) is a run of the river scheme with diurnal storage on the Kopili River at Longku in east of Karbi Anglong and west of Dima Hasao Assam districts. The project is envisaged to run at full potential in monsoon season and operate as a peaking station in non-monsoon season. The total installed capacity is 120 MW, generated by Main Powerhouse with 2 units of 55 MW installed capacity each, and an Auxiliary Powerhouse with 3 units of 2.5+2.5+5.0 MW installed capacity.

15. The LKHEP is part of stage development of the Kopili River valley near Longku village, with the Dam site at 25°39'57.39" N and 92°46'53.62" E and the Powerhouse site at 25°41'54.02" N and 92°48'15.98" E. The first stage, which is upstream of the LKHEP, comprises of 3 x 25 MW Khandong HEP and 4 x 50 MW Kopili HEP. The project location is shown in **Figure 1: Project Location Map (Source: Google Maps)**. The Project can be reached by NH-52 Guwahati – Lanka Road and Lanka - Project Site Road (~155km+~48km). Besides the Power Plant Complex, LKHEP includes 14 new Access Roads within the Project Site Area for access to various Project components.

1.4 SALIENT FEATURES: CONTRACT DETAILS FOR CIVIL WORKS

16. The following **Table 1-1: Details of Contract for Packages and Present Status** presents the contract details of project.

Table 1-1: Details of Contract for Packages and Present Status

Employer	Assam Power Generation Corporation Limited (APGCL)	
PMC	AF Consult Switzerland in association with United Engineers Alliance India	
Contract	Contract agreements with APGCL (Chronology of Events):	Key Dates
	➤ Notice to Proceed for Phase-A, issued.	26/07/2017
	➤ Contract for Consulting Services, signed.	04/10/2017
	➤ Contract for Phase-B Services signed.	11/01/2021

Package 1:	➤ Contract signed with M/s. BVG India Ltd. on	30-09-2022
Package-2: Contract (Project Roads, Civil & HM Works)	➤ Notice to proceed issued to M/s. L&T Ltd, by APGCL with commencement date effective from 01/09/2020.	31-08-2020
Package 3:	➤ Package was awarded to M/s Andritz Hydro Pvt. Ltd. ➤ the contractor is working at full swing	09/09/2021
Package-4: Construction of 220 KV Double Circuit Transmission Line from Lower Kopili Hydroelectric Project to Sankardev Nagar Grid Substation	<ul style="list-style-type: none"> ➤ Contract Agreement was signed with M/s. Salasar Techno Engineering Limited (Lead Partner) and M/s. Akelik Group (JV Partner) ➤ Construction of 220 KV Double Circuit Transmission Line from Lower Kopili Hydroelectric Project to Sankardev Nagar Grid Substation on Turnkey Basis. ➤ Contractor to identify impacts related to IR as per Resettlement and IPP (RIPP) prior to commencement of works. ➤ TKC Contractor has mobilized during the Monitoring Period and established the operational office and store at Madap Bazar (near Kheroni Chariali) between Lanka and Longku. ➤ The transmission line is passing through 3 districts i.e., Dima Hasao, West Karbi Angling and Nagaon (sub-division Hojai). ➤ For 22 different types of towers, land and Zirat proposals have been submitted. The same were under review and verification by APGCL during the monitoring period. ➤ ADB safeguard mission has raised the concern about the early payment of the land and assets to affected landowners and sharecroppers etc. ➤ For monitoring and incorporating the progress towards the Environmental and Social progress, PMC has directed to initiate the reporting as per the present reporting schedule. So far, the land compensation has been paid to 46 project affected persons in Dima Hasao district. 	27/05/2022

1.5 PROJECT OBJECTIVES AND OUTCOME

17. Assam requires additional generating capacity to fulfil the needs of the state to uplift the state economy, to serve the unmet needs of existing customers, and to complete the household electrification. This additional generating capacity requires to be of lower cost, allowing the state

to continue to maintain the present generation costs, or even reduce such costs. Compared with oil, gas, and coal, the three other primary energy options available to Assam to enhance its generating system, hydroelectric generation provides a lower cost, and environmentally less polluting resource. LKHEP fulfils a portion of such needs. With several hydropower plants planned, amidst increasing capacity of thermal generation, Assam can maintain the share of hydropower capacity in the range of 33%, which is higher than the national average for hydropower capacity.

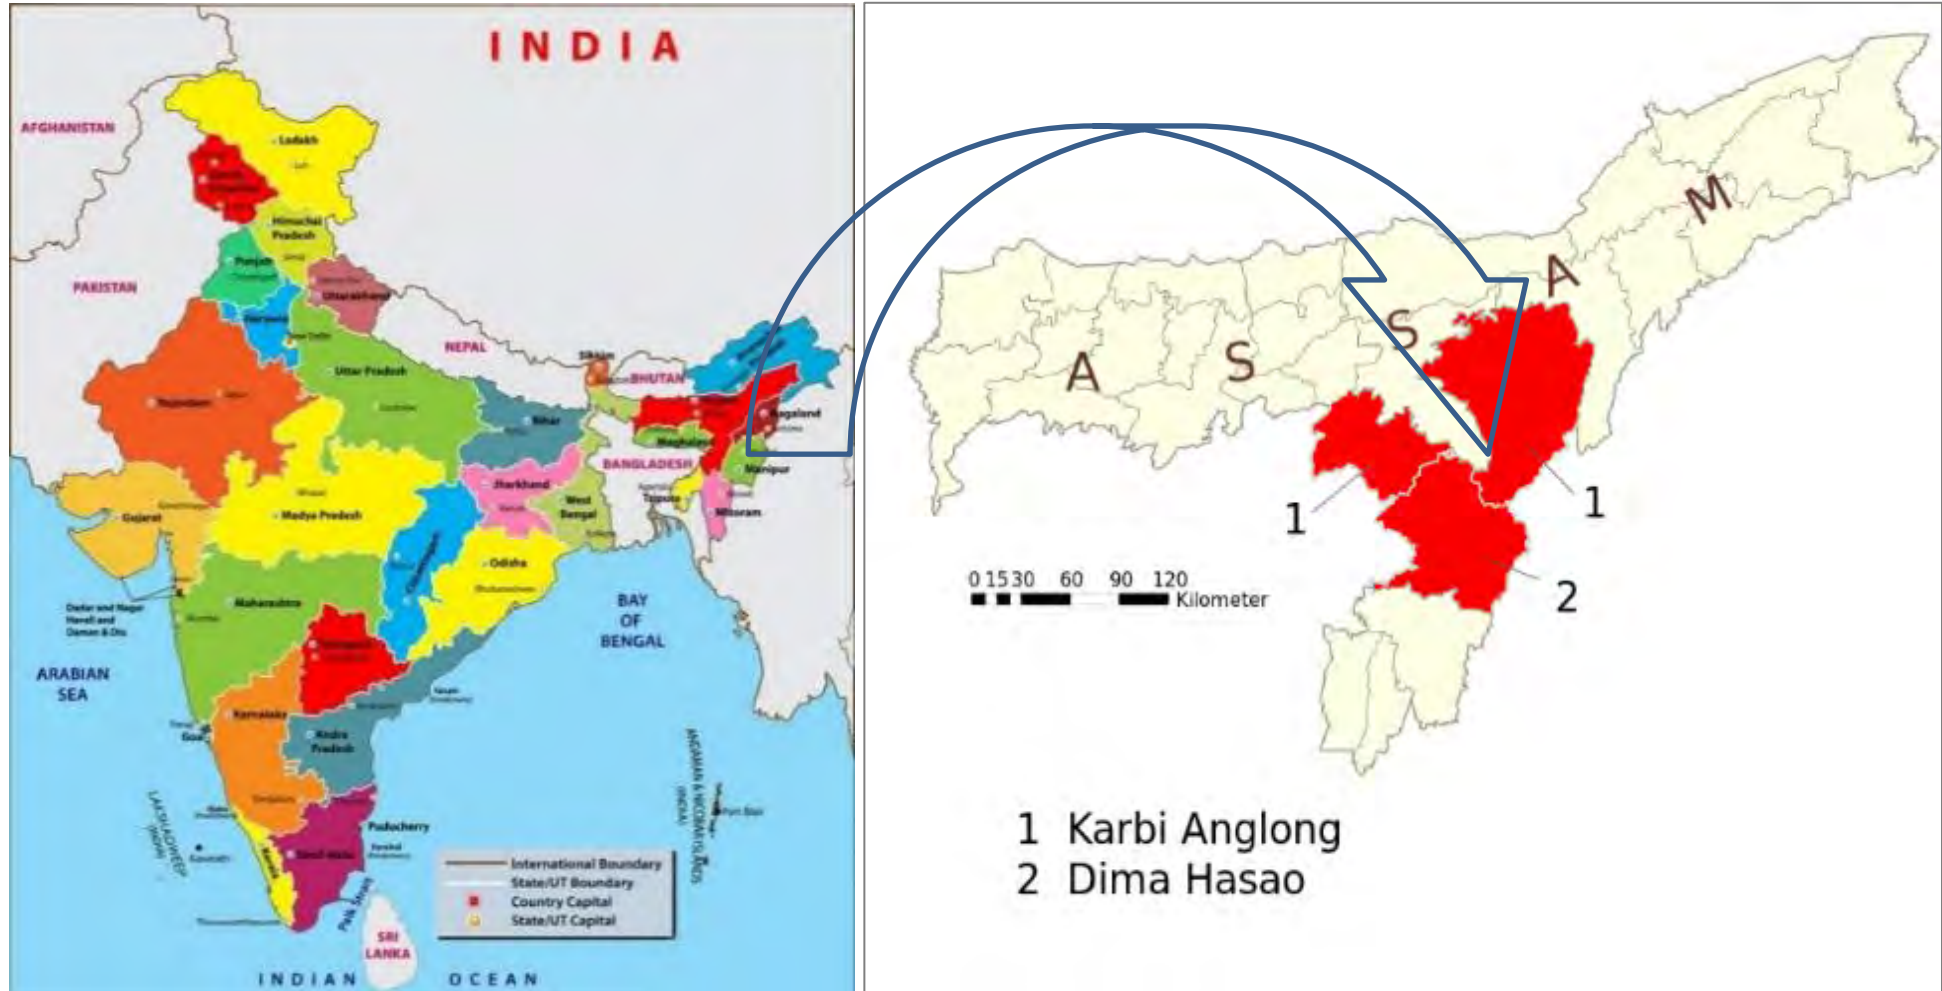

18. The proposed Tranche 3 project has three outputs: (i) construction of the 120 MW Lower Kopili hydroelectric power plant; (ii) strengthening of institutional capacity of Assam Power Generation Corporation Limited (APGCL); and (iii) improving resource management and community resilience along the Kopili River. The 120 MW Lower Kopili Project has a very important role in electricity demand for the Assam state as described in **Table 1-2: Importance of 120 MW LKHEP**.

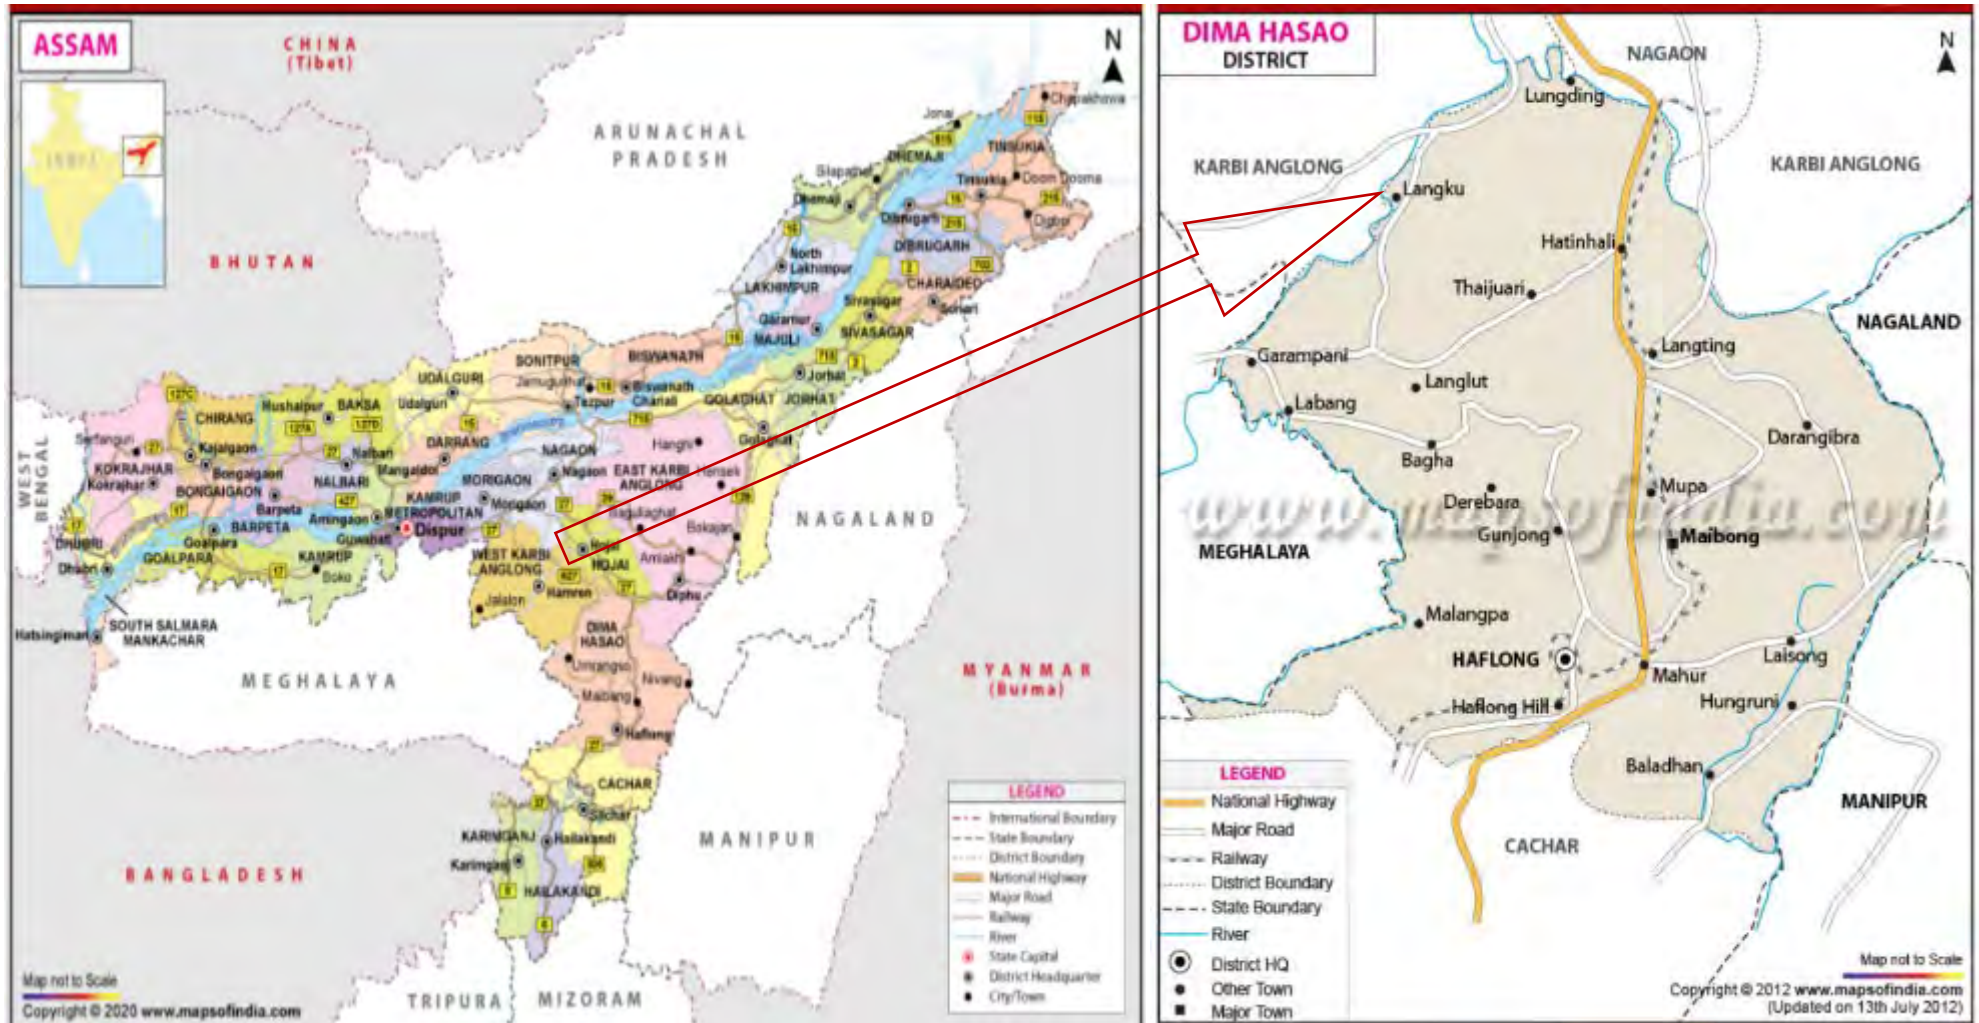

Table 1-2: Importance of 120 MW LKHEP

Importance of 120 MW LKHEP	
✓	The outcome of the project will be increased capacity of energy generation in Assam, where electricity generation will be increased by 469 gigawatt-hour/year (GWh/year).
✓	Greenhouse gas generation from electricity generation will decrease by 360,000 total carbon dioxide (tCO ₂)/year from 2024 onwards.

Figure 1: Project Location Map (Source: Google Maps)

1.6 PROJECT IMPLEMENTATION ARRANGEMENTS

19. The Department of Energy of GoA will coordinate all project activities at the state level. APGCL is the executive agency (EA) of the project. It has already established a Project Management Unit (PMU). The implementing Agency (IA) of the project is also APGCL. APGCL and the NGO contracted for safeguard implementation are responsible for the application of environmental and social safeguards to the project including proper implementation of various components of the CRTDP.

1.7 APPOINTMENT OF ADMINISTRATOR AT STATE LEVEL

20. State Government of Assam has already notified an officer not below the rank of Joint Collector or Additional Collector or Deputy Collector or equivalent official of Revenue Department, who will be responsible for the implementation of CRTDP (R&R Plan) at the State Level. This has already been established and a copy of the government order to this is attached in Annexure 1.

21. Administrator shall, to function efficiently and to meet the timeframe of CRTDP, be provided with such powers, duties and responsibilities as may be prescribed by the appropriate Government. Administrator will also be provided with office infrastructure and be assisted by officers and employees appointed by the appropriate Government.

22. Subject to the superintendence, directions and control of the Appropriate Government and the Commissioner for Rehabilitation and Resettlement, the formulation, execution and monitoring of the Rehabilitation and Resettlement Scheme shall vest with the Administrator.

1.8 COMMISSIONER FOR REHABILITATION AND RESETTLEMENT

23. The state government shall appoint an officer of the rank of commissioner or secretary of that government for resettlement and rehabilitation of affected Families under the Act of 2013. They will be called the commissioner for rehabilitation and resettlement. The Commissioner shall be responsible for supervising the formulation of rehabilitation and resettlement schemes or plans and proper implementation of each scheme or plans. The Commissioner shall be responsible for the post implementation social audit in consultation with the Gram Sabha in rural areas and municipality in the urban areas.

1.9 THE PROJECT MANAGEMENT UNIT

24. APGCL and its PMU will work closely with the administrator and commissioner and get the necessary directions from them. PMU will send all documentation to the administrator and commissioner for approval and guidance. PMU will be responsible for day-to-day implementation and monitoring of the project including CRTDP. It covers all aspects of the project construction including compliance with safeguard requirements. APGCL has appointed a full-time project director to head the PMU. Administrative staff, project engineers, financial officers, the social and environmental safeguard cell, and the communication unit will assist the Director.

1.10 SOCIAL AND ENVIRONMENTAL SAFEGUARDS CELL AT PMU

25. The Project Director cum Chief General Manager, Project Planning & Implementation

(CGM, PP&I), APGCL, is leading and responsible for overall implementation of social and environmental safeguards. PMU already has a dedicated social and environmental safeguards cell (SESC) with a qualified full-time environment specialist and a qualified full time social safeguard specialist. The SESC will keep close contacts with head of PMU of APGCL regarding safeguard application and its progress. SESC oversees coordination, preparation, implementation, and monitoring of the approved CRTDP.

26. It will assist PMCs to develop an environmental and social management system, and APGCL in updating and implementing CRTDP. The SESC will work with PMCs for overall management of social and environmental safeguards application. SESC facilitates land acquisition and compensation, relocation and resettlement, distribution of assistance to the AFs and supervision of income restoration and rehabilitation programs of the project. It will also be responsible for monitoring the implementation of all resettlement and rehabilitation activities, including land acquisition and compensation. APGCL has already established the PMU with designated staff on social and environment safeguards on a full-time basis, details are mentioned in the **Table 1-3: Details of Environmental and Social Experts in PMU** below:

Table 1-3: Details of Environmental and Social Experts in PMU

Name	Position
Dr. Deepak Kr. Baruah	Environmental Expert
Mr. Pankaj Hazarika	Social Expert

27. The responsibilities of SESC include:

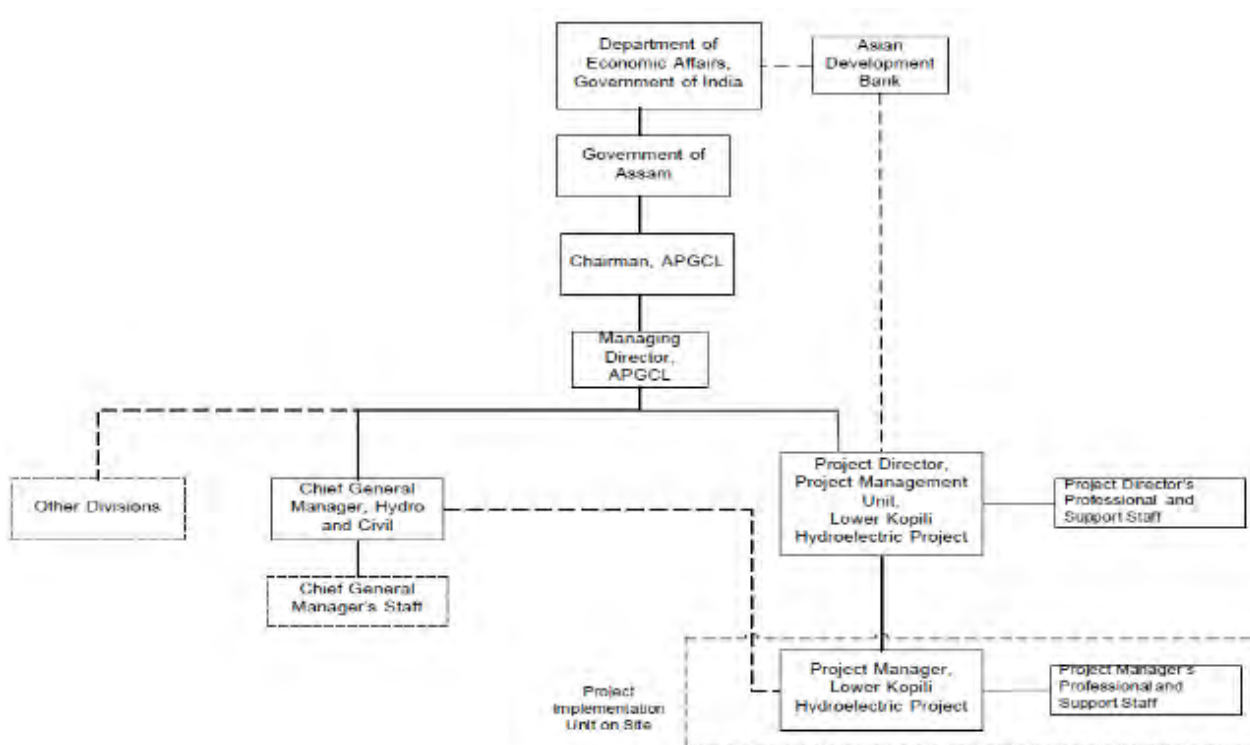

- ✓ Responsible for all land acquisition activities and keeping records of land acquired, compensation paid, and when land was physically taken over for the Project.
- ✓ Liaison with the State and District levels departments and agencies to facilitate the AFs' access to services and income generating programs that are already in place.
- ✓ Coordinate the delivery of cash compensation and resettlement assistance to all entitled persons.
- ✓ Provide social development perspectives and inputs to on-going project design and implementation by working closely with project planners, contractors, and construction supervision consultants.
- ✓ Link the project with State government agencies, PWD field units and the impacted communities.
- ✓ Coordinate with the two ADCs regarding social development and resettlement operations; and support the NGO contracted and local community organisations such as PAPA who representing the AFs; and engage skill training services, oversee the grievance redress mechanism, monitor CRTDP implementation, and cooperate with planned project evaluations.

- ✓ If a panel of experts (POE) is appointed during project implementation, facilitate its monitoring and evaluation programs.

28. The proposed organisation structures as provided in PAM are presented in **Figure 2: Project Organization Structure**.

Figure 2: Project Organization Structure

Source: PAM and as per the MOM of the interface meeting dated 24th January 2022.

1.11 PROJECT MANAGEMENT CONSULTANTS

29. APGCL has recruited the project management consultants (PMCs) to implement the project. In relation to safeguard compliance, the following actions are being carried out by PMC’s social and Environmental Safeguard Experts **Table 1-4: Details of Environmental and Social Experts in PMC** who are based at project site i.e., Longku:

Table 1-4: Details of Environmental and Social Experts in PMC

Name	Position
Dr. Jayanta Das	Environmental Expert
Mr. Sangram Singh	Social and Resettlement Expert

30. PMC prepares monthly progress reports on progress of CRTDP implementation and will ensure compliance in consultation with the Social and Environmental Safeguard Cell (SESC) on social, resettlement, and environmental aspects of the project including the progress in redressing AFs’ grievances and complaints. PMC social and resettlement safeguards specialists is assisting in preparation of the semi-annual monitoring report and will submit to PMU and PMU

will submit it to ADB.

1.12 IMPLEMENTATION SUPPORT -NGO

31. APGCL has hired an NGO, M/s. Consultants for Rural Area Development Linked Economy, (CRADLE), in joint venture with Gramya Unnayan Santha to support updating of CRTDP, and to implement it. The signing of contract and the commencement was on 13th November 2019 and 28th November 2019 respectively. The following **Table 1-5: Details of Key Experts and Support Staff in NGO team** presents the proposed for implementation of CRTDP.

Table 1-5: Details of Key Experts and Support Staff in NGO team

Name	Position	Remarks
Key Professional		
Mr. Ashok Kumar Sah	Team Leader	Providing his input from Lanka and field office.
Mr. L.P. Singh	Social Development Expert Cum R&R Specialist	Providing his input from Lanka and field office.
Mrs. Sumana Das	Communication Specialist	The concerned expert is to render crucial inputs as per project requirements but found to be irregular and hence project progress is being suffered, especially towards the gender action plan implementation and consultation and awareness.
Mr. Mukut Deka	Training cum Livelihood Specialist	The concerned expert inputs are handling the important aspect. Livelihood plan has been submitted to APGCL.
Non-Key Expert		
Mr. Karuna Bora	Field Coordinator cum Community Worker	Filed staff is available as per the requirement of the project. However, nominated person are not available, NGO is requested to furnish the updated support staff list in next MPR.
Mr. Pankaj Deka		
Miss Sangita Gayari		
Miss Sanmoni Langmailai		

32. The NGO is providing day-to-day implementation support to APGCL in addressing safeguard issues at the field level. The role of the NGO focuses on three activities (i) collection of additional baselines information from surveys, if required after the detailed design and final layout of the project is completed; (ii) assist PMU to implement CRTDP as per its entitlement matrix, distribution of identification cards to the AFs, disbursement of entitlements including compensation, and allowances to eligible AFs as per CRTDP; and (iii) raising awareness among the AFs, and dissemination of project information relating to land acquisition, compensation and resettlement planning and AFs' entitlements.

33. The NGO is also facilitating the AFs to submit the grievance applications (if any) to be resolved within the framework of Project's GRM. The Social Safeguards Expert of SESC is

monitoring from PMU whereas Social and Resettlement Expert, PMC is supervising day-to-day activities of the NGO at project site. The NGO is working as a link between the AFs and APGCL. NGO as per terms of the ToR, are educating AFs on income restoration avenues and improvement measures including ensuring that the AFs use cash compensation in productive investments. Broad objectives of the NGO are:

- Identification, verification and updating of AP Census based on the final list and final design for updating the CRTDP.
- Develop micro plans in consultation with the AFs and PMU staff.
- Educate the AFs on their entitlements, and obligations.
- Prepare and distribute Project Identity Cards. All eligible project affected families will be given Identity Cards.
- Ensure that the AFs receive their entitlements. The NGO will provide advice to AFs on benefits of various income restoration options and assist them in getting benefits from various government development programs.
- The NGO will help the affected Families to derive maximum benefits from the project without losing their livelihoods and with least impacts on sociocultural aspects of their lives.
- Assist the AFs to use the GRM.
- The present scenario of the deployment and other status provided in **Table 1-6: Status of NGOs inputs:**

Table 1-6: Status of NGOs inputs

Sl. No.	Activity/agreed terms in CRTDP	Present Status	Remarks
1	The NGO staff is supposed to be stationed at the project site and regularly update the baseline information through group meetings and village-level meetings. Such meetings will be the arena to consult the AFs and to inform about the project's progress and the delivery of their entitlements.	In the monitoring period there were some challenges faced due to the pandemic restrictions imposed by GoA. Key staff mobilisation was difficult because of Covid-19 restrictions.	NGO advised to establish office at Longku for assigned activities and easy access by AFs and APGCL/PMC.
2	The frequency of meetings will depend on the requirements of the progress of implementation of CRTDP; however, at least once a month, the affected Families will be met by the NGO and rendered relevant support as well update them on projects	Meetings are being carried out by NGO, but these are not on regular basis.	NGO is advised to conduct the regular meetings with AFs and particularly with Women. Livelihood restoration program requires more close interaction with the targeted group.

Sl. No.	Activity/agreed terms in CRTDP	Present Status	Remarks
	progress.		
3	NGO will arrange meetings with all stake holders including revenue department, APGCL to effectively update IA on the project's progress and discuss key issues needing urgent attention.	Meetings with key stakeholders are not conducted by NGO.	NGO to apprise other stakeholders on key issues and feedback documented for effective implementation of the CRTDP program.

1.13 CO-ORDINATION COMMITTEE AT PMU LEVEL

34. In a review meeting chaired by Hon'ble Chairman, APGCL has directed for constitution of a Co-ordination Committee. The same has been constituted vide No: APGCL/LKHEP/PD/2017-18/21/Part-1/Part file-1/126, dated: 11.11.2022 for Lower Kopili Hydro Electric Project to facilitate consultation between Affected Peoples (APs), APGCL, District Council and NGO for discussion of APs problem regarding Land Acquisition, Rehabilitation & Resettlement and other aspects relating to Livelihood restoration and hence smooth implementation of CRTDP. The CRTDP implementation NGO will facilitate consultation between the APs, APGCL and District Councils at the field offices and with the APs as and when required to discuss the implementation of CRTDP. The office order has been provided as Annexure-3.

1.14 FACILITATION COMMITTEE AT GM LANKA LEVEL

35. In addition to the above coordination committee, to support this committee and for smooth implementation of local area development plan, gender action plan, livelihood plan etc, a Facilitation Committee has also been constituted dated: 25.11.2022 for Lower Kopili Hydro Electric Project to facilitate CRTDP implementation. The office order has been provided as Annexure-4.

1.15 EXTERNAL MONITORING CONSULTANT

36. Apart from this, External Monitoring Consultant (M/s Feedback Infra Private Limited, AQUALOGUS – Engenharia e Ambiente, Lda. & Jade Consult Pvt. Ltd. and JFPR implementation agency M/s RMSI are also onboard and has started the monitoring and support to the APGCL.

CHAPTER 2. PROJECT STATUS

37. The SESC is closely working with the Revenue department of both the ADCs and having regular interaction with AFs for the completion of disbursement of land compensation in Karbi Anglong ADC, in Dima Hasao payment of land and structure compensation has been completed. The following section was extracted from the PMC's monthly monitoring report supported by contractor's monthly reporting on work progress.

2.1 STATUS OF PROJECT IMPLEMENTATION

38. According to PMC's MPR the following in **Table 2-1: Progress of Work** presents the project implementation status as on 31st December 2021. For more details, technical monthly report of December 2022 can be referred.

Table 2-1: Progress of Work

2.2 STATUS OF PROJECT RESETTLEMENT ACTIVITIES

39. Project resettlement activities are being implemented as per agreed timeline, however due to various field constraints some challenges are being faced like non-availability of AFs during survey and consultation, busy schedule of revenue filed staff of ADCs etc. following **Table 2-2: Project Resettlement Activities** presents the status of project resettlement activities.

Table 2-2: Project Resettlement Activities

Activities	Responsible Agencies	Status	remarks
Project Initiation Stage			
Establish SESC	APGCL	Completed	SESC cell has been established at PMU.
Hire Environment and Social safeguards professionals of SESC	APGCL	Completed	Environmental and Social Safeguard Experts have been positioned.
Hire an NGO to implement CRTDP	APGCL	Completed	M/s. Consultants for Rural Area Development Linked Economy, (CRADLE), JV with Gramya Unnayan Santha has been engaged.
Hire Project Management Consultants	APGCL	Completed	AF Consult Switzerland in association with United Engineers Alliance India
Appoint a Grievance Redress Committee	APGCL/ADCs/ PAPA	Completed	Annexure-2 & Annexure-5
Finalize the CRTDP with final budget and timeline	PMU/SESC/NGO	Completed	The budget was finalised and the implementation of CRTDP is in progress. There is some delay according to the agreed timeline.
Disclosure of CRTDP after further consultations with the AFs and ADCs	APGCL/PMU/SESC/ NGO	Completed	Ongoing process...
CRTDP Update			
Validate Census and survey findings	PMU/SESC/NGO	Completed	
Conduct socioeconomic surveys for all the affected Families/persons based on the final list and final design in order to update the CRTDP	NGO/PMC/SESC/PMU	Completed for Dima Hasao, for Karbi Anglong its yet to be done.	The Karbi Anglong ADC permission not received. SESC cell is in continued touch with Karbi Anglong ADC.
Conduct FGDs/consultations and	SESC/NGO/field level	Initially during the socio-economic survey, NGO	

Activities	Responsible Agencies	Status	remarks
group meetings	engineers/ Contractors	has conducted, however, there is no consultation since March 2020 due to pandemic COVID-19.	
Finalize entitlement matrix with a budget and timeline	APGCL/PMU/SESC/ NGO	For Dima Hasao District Micro plan has been prepared and submitted for approval from PMC/APGCL.	Karbi Anglong yet to be completed.
Disclosure of final entitlements to all AFs	PMU/SESC/NGO	Yet to be done	Once the micro plan is approved from APGCL, the same shall be disclosed.
CRTDP Implementation Stage			
Payment of compensation	PMU/SESC/ District Councils/ NGO	Completed	Compensation of Land and assets have been completed for 1369 APs in the Dima Hasao Districts by APGCL. Similarly, 231 affected persons have been paid for land and Zirat in Karbi Anglong district.
Give publicity to compensation payment	PMU/SESC/ District Councils/ NGO	Completed	
Consultations with the AFs during rehabilitation activities	PMU/SESC / District Councils/ NGO	As the CRTDP implementation NGO has been conducted community consultation and meetings in support of Social & Resettlement Expert PMC, Social Expert, APGCL and PAPA president and receive feedback by way of consultation with all the APs on a regular basis.	NGO has reported total 93 numbers of consultation meeting so far since the commencement of the CRTDP Implementation i.e., November 2019. Monthly progress report for the month of December 2022 is attached as Annexure-6.
Implementation of income restoration programs	PMU/SESC/ District Councils/ NGO	Socio-economic survey has been captured details of families who have members in the employability age and this data would be	NGO has conducted Training Need Assessment Survey (TNA) and has submitted the draft proposal for livelihood trainings as

Activities	Responsible Agencies	Status	remarks
		further refined through need-based assessment and through one-to-one interaction with the candidates concerned.	per the TNA. However, APGCL management has decided to go with open tender to engage the facilitating agency.
Relocation and rehabilitation programs	PMU/SESC/ District Councils/ NGO	Site for relocation of displaced AFs have been identified, layout plan has been finalised and a model house has been constructed and all displaced APs were consulted for their views and acceptance. However, process of finalising the number of displaced persons is in progress.	Total 122 properties were reported have been paid.
Implementation of grievances redress mechanism	PMU/SESC/ District Councils/ NGO	Till date 402 grievances from the APs have been recorded.	The details are provided in chapter 4. In Tier II level GRC meeting 243 AF's grievances have been resolved and 159 grievances have been recommended for 3rd Tier GRC.
Internal monitoring of social safeguard application	PMU/SESC/ District Councils/ NGO	Internal monitoring is being done in supervision of SESC by PMC Social and Resettlement Expert.	Bi-annual report submitted as per schedule.
External monitoring of social safeguards and Evaluation	PMU/external consultants/ international consultants	External Monitoring consultant has been appointed and kick-off meeting has been done.	The inception visit by the External Monitoring team has been scheduled in the month of Jan 2022.

CHAPTER 3. PERFORMANCE MONITORING

40. Both the APGCL and ADB have their own separate monitoring responsibilities. The extent of monitoring activities, including their scope and periodicity, will be commensurate with the project's risks and impacts. APGCL is required to implement safeguard measures and relevant safeguard plans, as provided in the legal agreements i.e., CRTDP, and to submit agreed periodic monitoring reports on their implementation performance.

41. The Lower Kopili HEP is classified as Environment Category A, Involuntary Resettlement (IR) Category A, and Indigenous Peoples (IP) Category A ("triple A") in accordance with ADB's Safeguard Policy Statement (SPS 2009). Additionally, based on the results of the climate change risk assessment, the subproject is High Risk for Multi-Hazard Index and Climate. To fulfil national regulatory requirements and ADB's SPS 2009, APGCL prepared an Environmental Impact Assessment (EIA) with environmental no-objection obtained from the Ministry of Environment, Forest and Climate Change of Government of India. In addition, APGCL developed a Resettlement and Indigenous Peoples Plan (RIPP) comprised of a Combined Resettlement and Tribal Development Plan (CRTDP) for hydropower component, and a Combined Resettlement and Indigenous Peoples Plan (CRIPP) for transmission line component.

42. The project management unit (PMU) in APGCL is responsible for overall project planning and implementation, including procurement, accounting, quality assurance, social and environmental issues, and coordination with concerned agencies. APGCL has already established its social and environment safeguards cell (SESC) in its PMU comprising 2 full time staff and is being supported by the project management consultant (PMC) with dedicated environment and social safeguards specialists. APGCL has also engage qualified and experienced external experts in a timely manner for environment and social monitoring that will not be involved in day-to-day implementation and supervision of the Project.

43. The duties of APGCL PMU include:

- (i) Conduct overall coordination, preparation, planning, and implementation of all field level activities.
- (ii) Update the EMP (see below) for review and clearance by ADB prior to any contract award.
- (iii) Implement EMPs following ADB's Safeguards Policy Statement 2009, IFCs Environment, Health and Safety general guidelines and national regulations etc. at the project site.
- (iv) Undertake and supervise compensation to the affected families based on the entitlement matrix in the CRTDP.
- (v) Oversight construction contractor(s) on monitoring and implementing mitigation measures during design, construction, and operation phases of the project before contracts completed.
- (vi) Advise and coordinate to update environmental baseline surveys, finalize social survey and detailed design and update the safeguard documents (EIA/EMP and

- CRTDP) for review and clearance by ADB following detailed design and survey results.
- (vii) Engage in grievance redress and ensure the prompt resolution of complaints.
 - (viii) Set up appropriate record keeping system.
 - (ix) Disclose relevant information to the affected people and continue consultations.
 - (x) Provide training and awareness on environmental and social issues to the project staff and EPC contractor(s).
 - (xi) Preparation of semi-annual and annual environmental monitoring reports and semi-annual social monitoring reports; and
 - (xii) Liaise with the concerned ministries, authorities, and government departments for the environmental and resettlement related issues of the project implementation.
44. ADB reviews project performance against APGCLs' commitments as agreed in the CRTDP. The extent of ADB's monitoring and supervision activities will be commensurate with the project's risks and impacts. Monitoring and supervising of social and environmental safeguards are integrated into the project performance management system. ADB will monitor projects on an ongoing basis until a project completion report is issued.

3.1 COMPLIANCE WITH LEGAL AND POLICY REQUIREMENTS

45. The resettlement principles adopted for this project recognize CRTDP based on the government acts and provision in consistent to Asian Development Bank's (ADB) policies and operations manuals, particularly the Safeguard Policy Statement (2009). Approved Entitlement Matrix is provided as Annexure-7 in the CRTDP report.
46. The land acquisition and compensation procedures of Dima Hasao and Karbi Anglong ADCs provide a comprehensive legal framework to prepare and implement resettlement plans and tribal development plans. The Project follows the CRTDP land acquisition as well as livelihood restoration and rehabilitation. In terms of land value estimation, no land transaction or revenue records are available apart from the data on leased land parcels to tribal person. Without any fair market rate available, it was estimated as per the rate provided and provided by the Autonomous District Council, and the rate was approved by the Public Works Department (PWD) of Assam for civil structures and buildings. They match most of the involuntary resettlement and indigenous people safeguard policy requirements of ADB.

3.2 COMPLIANCE WITH SOCIAL SAFEGUARD COVENANTS

47. Detailed assessment has been done in due consultation with concerned stakeholders and the CRTDP and CRIPP have been prepared for the subproject with an objective to record social, economic, and cultural aspects of the project area and its affected communities, and to present a comprehensive mitigation plan to address adverse social impacts of the project on them. A key part of the CRTDP is the strategy that enables the project-affected families (AFs) to benefit from the project, and to restore and improve their livelihoods and sources and income.
48. It outlines the institutional arrangements for delivering entitlements and project benefits

to the AFs and other stakeholders, a mechanism for resolving grievances and complaints, and a monitoring framework to follow and report the progress of the implementation of CRTDP. The CRTDP and CRIPP have been prepared in compliance with the state and national laws and regulation and ADB SPS, 2009. Considering affected families (AFs) are scheduled tribes, a series of consultations were undertaken for broad community support (BCS), and agreements were made between APGCL and two district councils indicating the BCS. APGCL has adequate budget allocation provision for land acquisition, resettlement, and rehabilitation of affected families. APGCL has already established its social and environment safeguards cell in its PMU and is being supported by the project management consultant having dedicated safeguards specialists, in addition, an implementing NGO has been contracted to support the implementation of CRTDP and CRIPP. CRTDP will be updated by APGCL and the NGO prior to implementation and CRIPP will be revised after completion of final line alignment. Compensation will be provided prior to any physical and economic displacement. In the event of any unanticipated social impacts during project implementation, APGCL will take corrective actions, and update the CRTDP and CRIPP and the same will be disclosed on the ADB website. APGCL will submit semi-annual monitoring reports and external expert will monitor APGCL's implementation. The monitoring reports will be posted to ADB website and disclosed locally by APGCL.

3.3 GENDER

49. Tranche 3 is classified as Effective Gender mainstreaming (EGM). The project design integrates relevant gender focused interventions. A gender action plan (GAP) with well-defined activities, indicators, targets and timelines has been prepared to ensure that gender mainstreaming initiatives are effectively implemented. The GAP initiatives will provide opportunities for enhanced participation of women in project related staff trainings. Gender capacity building of PMU staff and contractors will help create capacities and opportunities for improved gender responsive planning and project implementation. Orientation workshop with special focus on enhancing female workforce participation, skilling, equality in wages, health, safety, hygiene and on the need to maintain sex disaggregated record of workforce will be planned for the contractors and labourers. The GAP activities will ensure women's participation in all projects related community awareness campaigns and consultations.

50. Women's participation and direct benefits will be secured across all community driven activities for community disaster resilience action plans. Disaster warning systems and mitigation strategies will integrate an inclusive approach to planning and execution. Local area development planning activities will promote gender responsive infrastructure in education and health facilities and services. Gender focused awareness campaigns in nutrition, health and menstrual hygiene will be planned and targeted towards girl students. Special measures will be taken to enhance women's participation in resettlement, rehabilitation, and income restoration initiatives. Monitoring and evaluation mechanisms will track beneficiary data across all interventions in a sex disaggregated manner. Impact evaluations and social audit methodology will include gender and social parameters to be able to assess impacts from a gendered perspective. A gender monitoring consultant with support from CRTDP team and JFPR experts

will be responsible to collate data on GAP progress and report to the PMU. The PMU will provide support in reviewing and submitting quarterly progress reports on implementation of GAP.

51. The administrative monitoring mechanisms will be inclusive of socio-economic performance and sex, caste- and ethnicity disaggregated data. The record will be maintained by PMU. Adequate resources are provided for implementation and appropriate provisions made for monitoring and reporting. The Summary Poverty Reduction and Social Strategy (SPRSS) was included in the PFR report for Project 3.

52. Based on the final loan agreement the loan covenants relating to social safeguards are listed and the process and status for compliance is presented in the **Table 3-1: Status on Social Safeguard Covenants** below:

Table 3-1: Status on Social Safeguard Covenants

Para No	Description	Compliance Status	Remark
Article IV Section 4.02	The borrower shall enable ADB's representatives to inspect the project, the Goods, Works and Services, and any relevant records and documents	Being Complied	
Schedule 5 Implementation Arrangements	Social and Environmental Safeguards Cell has been established and Social and Environmental Experts are positioned	Complied	
Schedule 5 Land Acquisition and Involuntary Resettlement Para 6	(a) All applicable laws and regulations of the Borrower and the State relating to land acquisition and IR; (b) The IR safeguards; and (c) Measures and requirements set forth in the RIPP/CRTDP, and any corrective or preventive action set forth in the safeguards monitoring report.	Being Complied Being Complied Being Complied	Land has been acquired for the project as per provisions of the Schedule VI of the constitution of India.
Schedule 5 Land Acquisition and Involuntary Resettlement Para 7	Without limitation the applications of the IR safeguards or the RIPP, the Borrower shall ensure, or cause the EA to ensure, that no physical or economic displacement takes place in connection with the project until: (a) Compensation and other entitlements have been provided to affected families in accordance with the RIPP; and	Being Complied	The land and assets compensation has been paid in 2018. However, the other entitlements are yet to be paid. Micro plan has been prepared based on the socio-economic data collected by NGO.

Para No	Description	Compliance Status	Remark
	(b) A comprehensive income and livelihood restoration program has been established in accordance with the CRTDP.	Yet to be Complied	NGO has been directed to prepare and submit the Livelihood Restoration Program.
Schedule 5 Land Acquisition and Involuntary Resettlement Para 8	The Borrower shall ensure, or cause the EA to ensure, that the preparation, design, construction, implementation and operation of the project and all project facilities comply with (a) All applicable laws and regulations of the borrower and the State relating to indigenous peoples. (b) The indigenous people's safeguards; and (c) All measures and requirements set forth in the RIPP, and any corrective or preventive action set forth in a safeguard monitoring report.	Being Complied Being Complied Being Complied	Instead RIPP, the Combined Resettlement and Tribal Development Plan has been prepared and being implemented through the NGO engaged.
Schedule 5 Safeguards Monitoring and Reporting Para 11	The Borrower shall ensure, or cause the EA to ensure, that the following: (a) Submit semi-annual Safeguards Monitoring Reports to ADB and disclose relevant information from such reports to affected families promptly upon submission. (b) If any unanticipated environmental and/or social risks and impacts arise during construction, implementation or operation of the project that were not considered in the EIA, EMP, RIPP, RF or the IPPF, as applicable, promptly inform ADB of the occurrence of such risks or impacts, with detailed description of the event and	Being Complied Being Complied

	<p>provision for contractors to comply with the measures set forth in the GAP; and</p> <p>(iii) Adequate resources are allocated for implementation of the GAP, and</p> <p>(iv) Progress on implementation of the GAP, including progress toward achieving key gender and output targets, are regularly monitored, and reported to ADB.</p>	<p>to be complied</p> <p>to be Complied</p>	
Schedule 5 Communications and participation Para 15	The Borrowers shall ensure or cause the EA to ensure that the project is undertaken in conformity with the community awareness and participation plan as agreed between ADB, the Borrower, the State and the EA as referred in the PAM	to be Complied	
JFPR Grant Para 26	The Borrowers shall ensure or cause the EA to ensure that the Grant provided under the JFPR Grant and related output to be developed from such assistance in completed on a timely basis in consultation with the ADB	Being complied	Consultant has been engaged and has initiated the project works.

3.4 COMPLIANCE WITH COMBINE RESTTLEMENT AND TRIBAL DEVELOPMENT PLAN REQUIREMENTS

53. The LKHEP lies in the Dima Hasao and the Karbi Anglong Autonomous Districts Councils of the Assam State in India. The lands that fall within the jurisdiction of the two districts are 'scheduled'¹ or listed tribal land and those who belong to the listed tribes are 'scheduled tribes. The following **Table 3-2: Summary of Project Impacts** presents, the detail of Project affects villages under the jurisdiction of two autonomous districts (Dima Hasao 15 villages and Karbi Anglong 2 villages). Socio-economic survey in Karbi Anglong District is yet to be initiated.

Table 3-2: Summary of Project Impacts

Sl. No	Name of village	Affected Family	Total Land (in Ha.)	Total structures affected ²
1	District Dima Hasao	955	909	122
2	District Karbi Anglong	231*	145	0
Total		1186	1054	122

*231 land/Properties yet to finalised as project affected families.

Source: census and socio-economic survey conducted by the NGO, Karbi Anglong Socio-economic data yet to be updated.

3.4.1 Land Requirement for Various Project Components

54. 120 MW LKHEP project required 1577 hectares of land for all components in both the autonomous district i.e., Dima Hasao and the Karbi Anglong. Out of 1577 ha total land 523 ha is forest and 1054 ha is revenue land. The below **Table 3-3: Land Area Required for the Project** presents the planning and implementation stage land requirements.

Table 3-3: Land Area Required for the Project Components

Sl. No	Name of village	In DPR stage (Ha)	Remarks
1	Project infrastructure (powerhouse, dam, and key installations)	355	
2	Reservoir	552	
3	Roads, buildings, and project facilities	72	
4	Relocation site for 14 physically displaced HHs and the project township	75	
5	Land for other purposes (recreational facilities, helipad etc)	523	
Sub total		1577	

Source: CRTDP, data likely to be updated once provided by technical team/contractor.

3.4.2 Scope and Type of Land for Project Components

55. The scope of land acquisition has remained same as planned earlier and **Table 3-4: Scope and Type of Land for Project Components** below present the type of land in both the district which

¹ The Schedule VI of the Constitution of India established several ADCs in the northeast India. An ADC is an administrative entity with a structure to safeguard tribal peoples' rights and interests and their traditional ways of living. It also provides a political framework, guaranteed by the Constitution of India, for tribal peoples to self-govern their affairs.

have been acquired.

56. Total 109.75 crores have been paid to the forest department for forest land diversion and other requirements. Compensation for revenue land has also been fully paid in the Dima Hasao district and in Karbi Anglong compensation payment is in progress and the final status of disbursement will be updated in next SMR.

Table 3-4: Scope and Type of Land for Project Components

Sl. No	Autonomous District	In planning stage (Ha)	Implementation stage	Total
1	Dima Hasao	478	909	1387
2	Karbi Anglong	45	145	190
Sub total		523	1054	1577

Source: CRTDP report.

3.4.3 Loss of Crops and Trees

57. The loss of crops and trees were assessed during planning stage and captured in CRTDP report and accordingly the estimated amount was taken in R&R budget. However, during payment of land, amount of crop, trees and other assets were taken into consideration. The below **Table 3-5: Type of trees and crops impacted** presents the number of trees and crops which have been compensated in implementation stage. Compilation of Zirat (loss of crop, trees etc) are being undertaken by NGO and same shall be updated in the next SMR.

Table 3-5: Type of trees and crops impacted

Sl. No	Category of trees	Number during planning stage
1	Fruit bearing	5858
2	Fodder	75320
3	Fuel wood	5750
4	Timber	11618
Sub total		98546

Source: CRTDP and census and socio-economic survey conducted by the NGO.

3.4.4 Loss of common/government properties

58. Apart from the private land and structures, 7 government/structure is also affected. The compensation for the same has been paid. Summary of the government/community properties are provided in the **Table 3-6: Details of Village wise government/community properties in District Dima Hasao** below. There was no such type of impact in Karbi Anglong district.

Table 3-6: Details of Village wise government/community properties in District Dima Hasao

7	The Secretary of Karbi Community Hall of Longku Area	Bidya Sing Engti Longku is the caretaker

Source: CRTDP and census and socio-economic survey conducted by the NGO.

59. Apart from above 7 CPRs identified in DPR/CRTDP, 2 more religious places/structures, which are being used for annual worship places by community has also been noticed with the help of local community and LKHEPPAPA. These are (i) **“Vothung Rongker” (annual worship place marked as archaeology site)** and (ii) **“Longri Rongker” i.e., Tiger Puja near Longku Nala/Bridge**. Brief report on the identified CPRs is attached with the SMR as Annexure-8.

3.4.5 Impacts on Structures (Residential and others Type)

60. As per the initial assessment jointly done by APGCL and the revenue departments, during planning stage total 18 structures were identified as fully impacted and 6 partially in the Dima Hasao district. During Socio-economic and census survey NGO was able to establish contact with the owners of 14 fully affected house owners. Hence owners of 14 structures were identified for further relocation process. However, as per the list surveyed by NGO has been further processed and microplan of the 14 PAFs was prepared and approved but not disbursed due to the area was not handed over to APGCL. During the monitoring period covered from July to December 22, ADB Safeguard mission was physically visited the project and found some structures which has not been left by APs and shifted to other locations. Simultaneously, the Zirat data (joint assessment sheets) were digitised, and data was processed by the NGO.

61. After reviewing its found that total 122 permanent and temporary structures have been compensated. Out of 122, 28 structures found like residence purposes. Hence, these the present status of these affected/compensated structures needs to be re-verified and would be ensured that the 14 nos., which mentioned in the CRTDP are included in this list. The following **Table 3-7: Summary of structures verified by NGO** presents summary of the impacted structures.

Table 3-7: Summary of structures verified by NGO

Source: Socio-economic survey conducted by the NGO based on the JVS assessment.

62. Apart from the identified list of CRTDP, some AFs has raised grievances regarding the non-inclusion of their structures/properties in identified list of fully impacted structures. Though boundary pillars have been fixed on some locations actual submergence area is yet to be demarcated on ground for determining actual physical impacts due to submergence and requiring relocation. All the grievances are pending at respective council's offices, follow-up is being done by SESC on regular basis to resolve the grievance.

3.5 SUMMARY OF IMPACTS

63. All impacts due to the project have been summarised in **Table 3-8: Summary of Impacts**. It's also providing the planning and implementation stages variations, if any.

Table 3-8: Summary of Impacts

SL. No.	Particulars	Unit	Quantity	
			in CRTDP	in implementation
1	Affected Autonomous District Council	Number	2	2
2	Affected Villages	Number	16	17
3	Total Land Requirement	hectare	1577	1577
4	Total Revenue Land	hectare	1054	1054
5	Total Forest Land	hectare	523	523
6	Total Crop Land	hectare	1054	1054
7	Total Trees	Number	98546	4227 ³
8	Total Primary Structures (Physically Displaced)	Number	18	Yet to be finalize

13	Total Physically Displaced Families and Affected Persons	Number	18 AFs and 85 APs	Yet to be finalized
14	Total Economically Displaced Families and Affected Persons at Dima Hasao	Number	983 AFs and 4609 APs	955
15	Total Economically Displaced Families and Affected Persons at Karbi Anglong	Number	231 AFs	215*

Source: CRTDP and census and socio-economic survey conducted by the NGO. *Certification from KAAC is yet to be obtained for (86+103=189 already certified by KAAC) 215-189=26 AFs.

³ The final numbers are yet to be updated after cutting trees in reservoir /submerging area.

⁴ Dima Hasao 955 + Karbi Anglong 215 = Total 1170 (Figure is based on the compensation disbursement list provided by Joint Secretary, KAAC w.r.t. Karbi Anglong)

3.6 STATUS OF PAYMENTS OF COMPENSATION

64. The loss of land the assets over the land like structures, crops and trees were assessed and compensation paid as per the agreed land rates with ADC and land holders. Compensation of assets were evaluated by the PWD, agriculture and horticulture etc department. The below **Table 3-9: Status of Payments of Compensation (Land including Zirat)** presents the compensation paid to AFs by APGCL and concerned ADCs.

Table 3-9: Status of Payments of Compensation (Land including Zirat)

Sl. No	Autonomous District	Total Land	Total Land (Ha)	Compensation (crores)	Remarks
1	Dima Hasao	Revenue	909.00	44.57	
		Forest	477.77	109.75	
2	Karbi Anglong	Forest	45.28		
		Revenue	145.00	8.11	
Sub total			1577.05	162.43	

Source: APGCL and ADC's payment documents.

65. The compensation of land and affected properties has been paid in both the districts. Based on the socio-economic data obtained by NGO through the ground survey, the R&R assistances and allowances have been calculated. As some delay had occurred in paying land and asset compensation in Karbi Anglong, the survey has not been conducted in 2 villages. Hence, the draft micro plan has only been prepared for Dima Hasao district for total 15 villages.

3.7 STATUS OF PAYMENTS OF R&R ASSISTANCE/ALLOWANCES

66. After complete payment of Land and Zirat, NGO has prepared microplan for Dima Hasao and Karbi Anglong and two R&R components i.e., *Rs 50,000 Special subsistence allowance (Additional assistance for STs) & Rs. 500,000 as One-time payment for Income Restoration and Improvement in lieu of job (for details please refer Annexure-7 EM)*. Micro plan has only been prepared for Dima Hasao district for total 15 villages and 955 AFs, whereas in Karbi Anglong the first microplan has been prepared for 86 AFs. The below **Table 3-10: Status of Payments of Compensation and R&R Assistances** presents the status of R&R paid village wise and pending AFs to be paid.

Table 3-10: Status of Payments of Compensation and R&R Assistances

67. During the monitoring period 894 PAFs have been paid and 61 AFs are in process to payment in Dima Hasao. Whereas in Karbi Anglong 86 AFs approved for payment and microplan for another 113 AFs has been submitted by NGO for review and approval from APGCL & KAAC.

3.8 RESTTLEMENT SITE DEVELOPMENT PROGRESS

68. As per CRTDP, total 18 numbers of residential properties were identified to be relocated. However, after considering the Zirat joint assessments sheets, it's found that total 122 properties need to be reassessed for relocation. In this regard, Hon'ble Chairman issued an instruction to get the resettlement site identified and consent from all the displaced persons need to be obtained. Accordingly, PMC were requested to identify an appropriate site for relocation and with the help of civil contractor, the contour survey and estimated plan would be developed.

69. After several discussion with GM Lanka, APGCL, PMC along with Social Safeguard Expert, APGCL, it was decided that the area where a model house (constructed for displaced person) has constructed would be fit for relocation site. Its opposite to PR-8 and falls in Disabra village area. The land has been physically handed over to APGCL by the Dima Hasao Council.

70. Contour survey for resettlement site for displaced APs has been completed. Draft Layout plan has also been submitted to PD, APGCL & GM, Lanka for review and approval. A meeting has also been scheduled on 1st July 22 to finalise the list of displaced APs.

CHAPTER 4. GRIEVANCE REDRESSAL MECHANISM

71. It would be pertinent to refer the Asian Development Bank's policy, which requires proper mechanisms for resolution of disputes that may arise from any aspect of the project and development process. The mechanisms should be "affordable and accessible," and third parties independent of the implementers should be available at the appropriate point in the process. The grievance procedure needs to be simple, administered in the first instance at the local project level to facilitate access, flexibility and open to various proofs considering the need for speedy, just and fair resolution of any grievances.

72. The detailed description of the grievance redress mechanism (GRM) has been provided in CRTDP. The purpose of the GRM will be to receive and facilitate the resolution of affected people's concerns, complaints, and grievances about the social and environmental performance at the project level. The GRM will aim to provide a time-bound and transparent mechanism to voice and to resolve social and environmental concerns linked with the project. The project-specific GRM is not intended to bypass the government's own redress process but to address project-affected people's concerns and complaints promptly, making the GRM readily accessible to all segments of affected persons and scaled to the risks and impacts of the project. Hence, depending on the nature and significance of the grievances or complaints, the GRM will comprise procedures to address grievances at the project site, and at the PMU level. More serious complaints that cannot be addressed at the project level will be forwarded to the PMU grievance redress committee. The GRM will not deal with matters pending in a court of law. However, complainants may access the formal legal system at any time.

4.1 GRIEVANCE REDRESS PROCESS

73. A three-tier grievance redress mechanism has already been notified for handling grievances. The first tier is the grassroots level mechanism. Grievances of the AFs are first dealt with by Gaon Buras in consultation with the field officials, and the contractors of the project. Complaints that cannot be addressed at the level of Gaon Buras will be forwarded to the Project level grievance redress committee (GRC) which is the second tier. The third tier is the appellate GRC at the state level. APGCL will deal with the complaints and grievances as the appellate GRC. The presence of GRM or seeking relief from GRM is not a bar to take grievances and complaints to national courts for arbitration.

4.2 OTHER PATHS TO REDRESS GRIEVANCES

74. There are three other supplementary paths that are opened for the AFs to resolve their problems, complaints, and grievances regarding the project and its implementation:

- (i) ADB India Resident Mission in New Delhi.
- (ii) ADB Accountability Mechanism; and
- (iii) India's Courts System.

4.3 CONSTITUTION OF GRC

75. GRM has been constituted and notified, the same has been disclosed among AFs and all the members/representatives of the committee in writing. The office order has been issued on 17th June 2020 vide No.-APGCL/LKHEP/PD/2017-18/21/Part-I/45. (Annexure 2)

76. Along with a minor modification of the above office order, following **Table 4-1: Grievance Redressal Committees** is presenting the details of GRM, Roles and responsibilities of the GRC's and timeline for resolution. The copy of modified order is provided as Annexure-5.

Second Tier of GRC			
Chairman	General Manager, Civil (PMU)		

⁵ Assam Cabinet announced that Gaon Buras, village-level functionaries of the district administration, will be called 'Gaon Pradhans'.

- The government has reasoned that a number of young men (and women) become Gaon Buras, and thus, the word 'Bura' (meaning old in Assamese) is no longer appropriate.
- Gaon Buras are the village headmen. They are the eyes, nose, ear of the district administration at the village level.
- There are about 6,000 Gaon Buras in Assam. Women 'Gaon Buras' are not very common, and they take over, if their husbands die.

History:

- It belongs to the colonial era, when the British appointed the oldest person in the village as the head, who would oversee matters relating to land and revenue in a particular area.
- Post-independence, the government continued with the institution and made the Gaon Bura a formal part of the Assam Revenue and Disaster Management department, increasing his responsibilities, and eventually introducing a small honorarium for the role.
- In Arunachal Pradesh, too, the Gaon Buras (and Buris) are the most important village-level functionaries.

Duties:

- Maintaining a population register of the village, maintaining land records, helping police investigate crime, etc.
- It involves now maintaining a log of Covid-19 cases in the village, organising vaccination camps, functioning as booth-level officers during elections etc.
- To issue a 'Gaon Bura certificate', a certificate that determines the permanent residency in a particular village.

Members	Designation	Responsibility

4.4 PRESENT STATUS OF GRIEVANCES IN DIMA HASAO DISTRICT

77. Since GRC has been notified and disclosed among the APs, till December 2021 total 402 grievances have been lodged/received. The summary of grievances is provided in **Table 4-2** below. Mostly the grievances are related to compensation for land and assets, followed by new claimants from owners due to inter/intra village migration and delayed implementation of the CRTDP. Delay in R&R assistance and allowances also accounted for majority of complaints with additional claims of land. **Figure 3: Glimpses of First Tier-II GRC Meeting held on 29 Aug 22** showing the meetings details.

Source: GRC Tier-II, meeting held on 29th August 2022.

78. 243 out of 402 grievances received, have been resolved and remaining 159 have been again forwarded to Secretary Revenue, Dima Hasao Autonomous District Council for their review and decision as the land is subject to Council's jurisdiction and observations from Lot Patowari, Councils was mentioned 'to be verify'. The Minutes of Meeting along with the other supporting documents is attached with this report as Annexure-9. Formal reply/information of the status to all the complainants shall be given in response of their grievances.

79. Basically, major grievances are coming due to non-demarcation of the project area and submerging area. It's also to pertinent to mentioned here that at this area, there is no cadastral maps were available of the project villages. It is divulged during an interaction with the Secretary, Revenue North Cachar Hills Autonomous Council (NCHAC) with regard to grievances raised by AFs that Council assured that they will very soon take help of the Assam Land Survey department of the Government of Assam for cadastral survey of the hitherto unmapped villages in Dima Hasao and it is hoped that council's authorities will take this up as a priority.

80. Compensation for land for two affected villages of Karbi Anglong was concluded in December 2021 and socio-economic survey did not commence during the reporting period and

once NGO takes up the socio-economic activities, awareness on GRC will be initiated.

Figure 3: Glimpses of First Tier-II GRC Meeting held on 29 Aug 22

GRC Tier-II Meeting 29 Aug 22- GM Lanka Briefing the Members regarding the type of Grievances GRC

Tier-II Meeting 29 Aug 22- Members discussing about the Grievances and its redressal

81. Since GRC has been notified and disclosed among the AFs, till December 2021 total 402 grievances have been lodged/received. The summary of grievances is provided in **Table 4-3: Summary of Grievances Received** below. Mostly the grievances are related to compensation for land and assets, followed by new claimants from owners due to inter/intra village migration and delayed implementation of the CRTDP. Delay in R&R assistance and allowances also accounted for majority of complaints. AGPCL is continue following up with Secretary, Revenue Dima Hasao to call a GRC meeting at the earliest to resolve the grievances.

15	Waperdisa	3	1	
Sub total		955	402	

82. Compensation for land for two affected villages of Karbi Anglong was concluded in December 2021 and socio-economic survey did not commence during the reporting period and once NGO takes up the socio-economic activities, awareness on GRC will be initiated.

4.4.1 GRC RECORD-KEEPING:

83. Records of all grievances received, including contact details of the complainants, dates the complaints received, nature of grievances, agreed corrective actions and when they were implemented, and the outcome are recorded and kept in the project office. The number of grievances recorded and resolved, and the outcomes will be displayed/disclosed at the project office, APGCL Office in Guwahati, and on APGCL website. A summary of this information will be included in the monthly progress report of NGOs and semi-annual safeguard monitoring reports submitted to ADB. All GRC meeting deliberations and decisions will be recorded and will be available for public reference. If ADB involves in grievance resolution, it will maintain records of its proceedings and disclose them to all parties engaged in the hearings.

4.4.2 GRM COSTS

84. All costs incurred in GRC meetings, consultations, communication, and reporting/information dissemination will be borne by PMU. Cost estimates for grievance redress are included in resettlement cost estimates. ADB will bear the cost of its own involvement in grievance resolution. The complainants are not charged any fee for the service. It is a good practice to provide the AFs with transport facilities to the project offices or cash payment for such expenses by the project, if feasible.

4.4.3 MEETINGS OF GRC

85. The GRCs will meet according to a published timetable. This information will be disseminated among all the AFs, ADCs, and PAPA. Each session/meeting will be held at a place which is convenient for the AFs to attend. The GRC procedures will be communicated through public notices and at the community meetings. The AFs will be made aware of the presence of GRM, its powers, and benefits during consultations and group discussions. At such gatherings, the AFs will be encouraged to discuss their views on the structure and functions of GRM.

CHAPTER 5. STAKEHOLDER ENGAGEMENT

5.1 STAKEHOLDER ENGAGEMENT PROCESS

86. Community consultation and engagement in planning and implementation of LKHEP is playing a key role in smooth project progress. Consultation is continuous process and will be continued throughout the project period. A stakeholder communication strategy was prepared for the project during preparation of CRTDP.

87. The consultation process has used different types of consultation such as in-depth interviews with key informants, focus group discussions, and individual consultations. As part of the consultation process and understanding of different gender perspectives on the proposed project, project-affected women were given an opportunity to voice their views on the project. They were also encouraged to (i) recommend actions that would ensure they too benefit from the Project; and (ii) suggest how to minimize harmful project impacts, if any, on them. Group level gender consultations were also carried out especially, to learn their views regarding income restoration, local area development including the development of health and education facilities in the Project area.

88. For Implementation of Combined Resettlement and Tribal Development Plan of Lower Kopili H.E. Project in Dima Hasao and Karbi Anglong districts of Assam M/s. Consultants for Rural Area Development Linked Economy (CRADLE) JV with Gramya Unnayan Santha, address & Contact No. C/258, Road No. 1C, Ashok Nagar, Ranchi-834002, Jharkhand Tel. No. 0651-2243102 has been engaged. The contract was signed on 13.11.2019 and the NGO commenced field work from 28.11.2019. The completion date as per the contract will be 27.11.2023.

5.2 CONSULTATIONS CONDUCTED DURING CRTDP PREPARATION

89. During the period between November 2014 and February 2017, the social and environmental safeguard consultants of the project team attended six public consultations organized by APGCL at the proposed project site. APGCL officially notified all stakeholders regarding the place, time, and the venue of such consultations. In these consultations, gaon Buras, General Secretary, President and representatives of PAPA, President of the Assam Democratic Student union (NGO), General Secretary of the Karbi Student Union (NGO), representatives of the Dima Hasao ADC, officials of the Forest Department, and APGCL, and social and environment consultants of the project team were participated.

90. It was agreed that a public consultation and disclosure plan will be formulated and used by the project management unit (PMU) of the project and draft plan was developed as **Table 5-1: Format for Public Consultation and Disclosure Plan** below.

Table 5-1: Format for Public Consultation and Disclosure Plan

Activity	Issues to Discuss	When	Agencies Responsible	Remarks
Consultations with the AFs on land acquisition, compensation and	Discuss with the AFs and other stakeholders (a) their entitlements, (b) compensation rates, and	(a) Pre-project (b) Project planning, (c) Project implementation	PMU/ SESC/ NGO/ LKHEPPAPA	Consultation with community is being

Activity	Issues to Discuss	When	Agencies Responsible	Remarks
Jirat rates, compensation payment – their timelines of delivery.	(c) the grievance redress mechanisms.	phases		conducted by NGO
Consultations on resettlement and rehabilitation of affected Families	Discuss (a) entitlements, (b) time frame of compensation payment, and (c) moving to the resettlement site, (d) livelihood restoration and improvement program	TBD	PMU/SESC/NGO/ PAPA	Consultation with community has been conducted by NGO and PMC
Consultative meetings on mitigation measures	Any unforeseen impact during implementation	When needed	PMU/ SESC/NGO/ PAPA	
Project information dissemination	Distribution of project information leaflets/booklets to all AFs	Intermittent	PMU/ SESC/NGO/ PAPA	
Public notification	Publish a list of affected lands / sites in local newspapers. Project commencement details and its progress details will also be publicized	TBD	PMU/SESC/ADCs	
Distribution of key project information and summary of CRTDP among all AFs and stakeholders	Distribute leaflets or booklets in local language on the project, land acquisition, compensation and livelihood restoration and improvement	TBD	PMU/SESC/NGO /PAPA

5.5 CAPACITY BUILDING TRAINING

94. In compliance of the approved gender action plan, Output 3: Socially Inclusive And Gender-Responsive Community Initiatives Implemented, Activity 3.5 Upgrade healthcare facilities in

project area, sub-activity 3.5.2 awareness initiatives planned to cover 300 adolescent girls including out of school / drop out (as feasible) and women in project area 300 adolescent girls. A pre informed two awareness camp were organised on 23rd and 24th September 2022. An ANM from PHC Umrangso was invited to deliver the knowledge and information on the subject matter. Both the gender focal points, Mrs Rita Boro, AGM and Shri Janordan Rongpi, DGM Civil along with Shri Pankaj Hazarika, Social Safeguard Specialist and PMC’s Social and Resettlement Expert were participated. A short report on the same is attached as Annexure 13. Attendance sheet from the Longku High School is also provided as Annexure-14.

Girls’ students sensitized in health (nutrition), hygiene, menstrual hygiene, and safe disposal practices (100% schools with girl students covered in project area) at Longku High School under GAP implementation activity number 3.6.1

Girls' students sensitized in health (nutrition), hygiene, menstrual hygiene, and safe disposal practices (100% schools with girl students covered in project area) at Chotolangpher ME School under GAP implementation activity number 3.6.1

Women and Girls sensitized on health (nutrition), hygiene, menstrual hygiene, and safe disposal practices at Krungmenglangso village, venue-LP School

5.6 CAPACITY BUILDING TRAINING

95. In compliance of the approved gender action plan, Output 2: Institutional Capacity of APGCL Strengthened Activity 2.2 Organize annual training of PMU and other staff on gender mainstreaming, prevention of sexual harassment at workplace, GAP monitoring requirements, sub-activity 2.2.1 training conducted every year (30 staff including 6 women staff trained), a pre informed annual training has been conducted by Social & Resettlement and Environmental Expert of PMC. While CGM (PP&I) visited the project site on 29th September 2022, a power point presentation presented among the participants covering (i) Involuntary Resettlement- Safeguards Requirement, (ii) Involuntary Resettlement- Management & Implementation, (iii) Involuntary Resettlement- Safeguards Monitoring and (iv) Gender Action Plan (GAP) implementation covering gender mainstreaming, prevention of sexual harassment at workplace, GAP monitoring requirements. The following **Table 5-5: Institutional Capacity of APGCL Strengthened**, presents about the training details and snapshot.

Table 5-5: Institutional Capacity of APGCL Strengthened

Sl. No.	Date	Venue/ location	Name of the Officials/Person attended
1	29 th Sept 2022	Project site, Longku	CGM (PP&I), GM Lanka, APGCL and PMC staff

CHAPTER 6. LIVELIHOOD ACTION PLAN (LAP)

6.1 OBJECTIVES OF LAP

96. It is an effort towards providing alternate means of livelihood or alternative source of income for those engaged in unsustainable livelihood practices and to enhance livelihood the Project Affected Families (PAFs) who are directly or indirectly affected by 120 MW LKHEP project interventions.

6.2 MARKET AND SKILL ASSESSMENT

97. The influx of activities will bring in demand for skilled and semi-skilled work force eventually in the years to come. For the PAFs this transformation will be beneficial as they too will find additional employment and income opportunities, but this will require acquiring precise and definite skills.

98. With this in consideration a set of livelihood activities are identified with low-cost business set up and accordingly training for which has minimum or no education requirements. Moreover, the objective is to empower the women of the PAFs by providing opportunity of training to start their own livelihood venture, so that they can supplement the incomes of their menfolk who are already working on daily wages or may find jobs in the emergent market.

99. An initial field survey was conducted by the CRTDP implementation NGO to collect the base line socio-economic data through structured questionnaire to gather facts and figures on the background, past and present occupation, their individual traits, skills set, educational level as well as their wealth/economic status.

100. A comprehensive research and in-depth market study helped to identify the livelihood activities viable for the PAFs with their specificities of demographic and socio-economics features. The market linkages, cost of investment, working capital, training requirements, etc. were developed.

6.3 PRODUCT IDENTIFICATION

101. Several rounds of meetings and focused group discussions were held with the several groups of PAFs, Mahila Samitees, Self-Help Groups (working), women headed Families to explain them the various livelihood activities and available options, the possible outcomes and the details of every activity was clearly explained to every individual so that they understood the activity well enough to opt from a range of activities. These are like mushroom growing, sanitary napkin production, food stalls/cart, dry packaged snacks production, tamarind candy making, drivers training for LMV and heavy vehicles training and short-term training for technicians – plumber, electrician, welder, etc.

6.4 PRODUCT RANKING

102. A low rank correlation ($r_s = + 0.2857$) between the two streams of thoughts - one specified by the PAFs and the other assessed on the criteria of investment capital, returns on investment, market demand of the products and activities, training requirements, education level required for each livelihood activity and women centrality – exhibits the fact that the PAFs see the market

demand and livelihood prospects from a different standpoint. It also translates their lack of low level of expectations to solve the standing issues crucial to the everyday life of the PAFs. The aspirations of the PAFs which were found to be job and assured income centric are seen to be deciphered in the conclusive result of having no correlation being present in the two streams of thought process and perception towards livelihood activities and its related components.

6.5 NUMBER OF TRAINEES IDENTIFIED AND ESTIMATED BUDGET

103. The initial estimated budget was calculated from the assistances provided in the micro plan based on the approved entitlement matrix for the training cost. However, **the total estimated budget is 310,96,681 (Three crore ten lakhs ninety-six thousand, six hundred and eighty-one Rupees)** to impart the livelihood enhancement training for **about 500 persons from the PAFs**. This estimated budget basically includes transportation cost, expenses on food and lodging, raw material for training purposes, fee of trainers and training institutes and expenses towards the handholding support after completion of training etc.

6.6 MONITORING

104. The Livelihood Action Plan (LAP) process will be intently monitored by the PMC/APGCL authorities. The training programs will be comprehensive and all-inclusive irrespective of social status, caste, and education etc. with the key objective of imparting practical knowledge rather than just theoretical knowhow and cater to the needs of livelihood options for those who have been affected by the project. The monitoring will be also in the form of a follow up to revise and check the progress of the initiatives and supplement them with refresher trainings whenever and wherever needed.

6.7 CONVERGENCE WITH ONGOING PROGRAM

105. Under the flagship program of NRLM, DDY- GKY training programmes can be initiated. However, the cost must be borne by the project.

106. In order to verify the IR Impacts, during the project implementation, site visits and consultative inspections in the project areas have been monitored by the PIU/PMU with the help of PMC.

7.1 WAY FORWARD

107. The CRTDP implementation is in progress and compensation has been paid to the affected land holders. Regular site visits are being conducted by PMU officials of APGCL, Social and Resettlement Expert, PMC. Team Leader, Social Expert from the CRTDP implementation NGO has been requested to be stationed at site. Consultation and grievance redressal should be regularly monitored.

108. The key observations of the monitoring on the social safeguards implementation in general are summarised as follows:

- ✓ Total 122 properties noted in joint assessment sheet and after ground verification/reassessment, further activities like identification of resettlement site, consultation for consent for relocation etc in consultation with PAPA President and concerned affected structure owners.
- ✓ Total 955 Affected families out of 1369 land properties have been entitled for R&R & 7 common/government properties are also identified for relocation.
- ✓ Institutional arrangements followed the guidelines of CRTDP and SESC has been established, Environmental and Social Safeguard Expert are positioned. For day-to-day monitoring, PMC has parallels setup and Social & Resettlement Expert, and Environmental Experts are mobilised.
- ✓ During the monitoring period community consultations has not been organised by PIU/PMC. Public Consultation meeting at all the villages along the project road needs to be organised.
- ✓ Grievance Redressal Mechanism has been established and GRC at all levels has been constituted. There is a minor modification that has been done in the constitution of GRC, the copy of modified order is provided as Annexure-5.
- ✓ Grievance Redressal Mechanism has been established and GRC at all levels has been constituted. Total 402 nos of grievances have been noted and forwarded to Council for verification. Accordingly, 29th June 2022, a Tier -II, GRC meeting was conducted and total 231 grievances were found that the aggrieved person/family has received land compensation (annexure-11). Whereas 12 aggrieved families found that their land does not fall under the handed over area by council to APGCL (annexure-12). Total 243 grievances were closed and 159 were again submitted to Dima Hasao Autonomous District Council for spot verification as stated by the Council's Lot Patowari.
- ✓ Census and socio-economic survey should be completed in 2 villages of Karbi Anglong on a priority basis and microplan has also been submitted for 86 AFs.

- ✓ As the microplan of Dima Hasao district has been prepared and submitted for approved. Payment of R&R for Annuity and special assistance to tribal category has also been paid to 894 out of 955 AFs.
- ✓ Community consultation and meetings were conducted.
- ✓ Institutional arrangements followed the guidelines of CRTDP and SESC has been established, Environmental and Social Safeguard Expert are positioned. For day-to-day monitoring, PMC has parallels setup and Social & Resettlement Expert, and Environmental Experts are mobilised.
- ✓ NGO services must be utilised as per agreed ToR, experts and support staff need to be mobilise in full strength, fully functional office should be maintained at Longku project site.
- ✓ Community consultation, stakeholder consultation, consultation with women groups and consultation with regards to girls for awareness about menstrual cycle, health and hygiene have been conducted.
- ✓ As external monitoring consultant is on board and have made field visits, the necessary compliance which have been suggested by them need to complete. The site which is mentioned as Archaeology near bridge at Longku Nala was noticed by the External Monitoring Consultant. The same has been got a confirmation letter from the Council that this structure is not under any kind of archaeological site.
- ✓ The estimated budget to relocate CPRs have been given in CRTDP. Microplan of these CPRs need to be prepared and approval from Competent Authority, APGCL may please be sought. For execution, existing contractors may be given variation, or any local contractor may also be engaged.

Annexure 1: Notification of Appointment of Administrator at State Level

ORDER

Powers and Functions of Grievance Redressal Committee:-

- A) First Tier of Grievance Redressal Committee will receive grievances and complaints of the aggrieved party and in consultation will try to resolve the same within 15 (fifteen) days. Complaints and grievances will be recorded and the same will be made available during inspection. Contact Details of Gaon Burahs, contractors and project site engineers will be prominently displayed at all construction site offices. The complaints and grievances not resolved at the project level will subsequently be placed in the Second Tier of the GRC.
- B) The second tier of the GRC will have a Member Secretary who will receive complaints and grievances. He may call representatives of project related agencies and Gaon Burahs of the project affected villages to participate in the GRC meetings. Record of each complaint and grievance will be maintained and decision taken will be conveyed in writing to the Affected Persons. Time frame to resolve the issues by the 2nd tier is 45 (forty five) days from the date of receipt of the complaint. In case the grievance cannot be resolved the same needs to be forwarded to the 3rd tier for further action.
- C) The third tier is the APGCL appellate authority located at Guwahati. The Chairman may call representatives of project affected persons, survey department and Gaon Burahs of the project area to participate in GRC meetings. The time frame to resolve the grievance is 90 (ninety) days from registration of the complaint. Any decision taken should be in writing and recorded and the concerned person will be intimated on the decision taken.

Minutes of Meeting Photo and Attendance Sheet of Public Consultation**Public Consultation Meeting held on 13.12.2022****Meeting Date: 13.12.2022****Meeting Venue: Cherimthepi (Revenue) Village****District: Karbi Anglong, Assam****Key issues Discussed: Variation of PAPs with the Disbursement list**

The Public Consultation meeting was held on the 13th of December 2022 at Cherimthepi revenue village, West Karbi Anglong, Assam under Karbi Anglong Autonomous Council (KAAC) Diphu. The meeting was attended by Mr. Abraham Teron and Mr. Karuna Bora from the NGO, Mr. Hemari Timung, President and Mr. Kennedy Enghee, Secretary, PAPA-LKHEP Karbi Anglong and its office bearers and members, Mr. Samuel Hanse (SGB) Lansomepi Revenue village, Mr. Haring Tisso (SGB) Cherimthepi Revenue village and Mr. Olios Teron (SGB) Rongtarme Revenue village, the village Gaonburas (GBs) and the PAPs.

The day's programme was Chaired by Mr. Hemari Timung, President PAPA-LKHEP Karbi Anglong and the Welcome addressed and object of the meeting was briefed by Mr. Kennedy Enghee, Secretary PAPA-LKHEP; he highlighted the variation and mismatch of PAPs name with the disbursement list of land compensation provided by the authority and to have a detailed discussion on the issue. Mr. Abraham Teron from the NGO briefed the constraints in preparation of Micro Plan due to the Variation of PAPs with the disbursement list provided by the authority and the PAPs claimed for R&R assistance while conducting the SES for identification and verification. There are variation of 103 PAPs/PAFs and about 7 in category or cases of variation as follows –

- 1) Expired: Death certificate/Legal Heir pending – 26
- 2) Document submission pending – 3
- 3) Father's name mismatch & document pending – 22
- 4) Husband's name mismatch – 2
- 5) Name & Father's name mismatch - 33
- 6) Name & Husband's name mismatch – 3
- 7) Name mismatch – 14

Accordingly, the letter of notification was prepared and served to each 103 individual and given a timeframe of 10 days for clarification, identification and to get a certification from the KAAC authority, Diphu, Karbi Anglong on the matter. The same notice was displayed printed in A3 size paper for general public information in the common place in presence of the SGB of Lansomepi and Rongtarme village and also in presence of PAPA President and Secretary and

other members. All forms of verification and identification to be completed and submit the Micro Plan to APGCL by mid January 2023. After handing over the letter to all the individual PAPs the PAPA and the SGBs and the PAPs decided to hold their meeting on the 17th of December 2022 at Cherimthepi to chalk out ways to addressed and settled the 103 variation cases for verification and identification in common platform and to addressed the issue centrally so that the genuine person are not left out. The meeting also decided to study each individual case individually for proper identification and draw out ways to justify and certified the variation. The SGBs and the PAPA asked each individual to produced all the required documents on 17th December 2022 which will be scrutinized in public for public identification verification. The meeting ended with a vote of thanks from the Secretary PAPA. Sample of letter issued are given below -

Sample letter issue to individual PAPs (Category wise)

1. Legal heir documents pending

List of Village attendees are enclosed

B. Agenda

S.No.	Agenda
1.	Information sharing with the village headman regarding the Livelihood training and methodology of training and handholding process for livelihood restoration.

Minutes

Meeting 27th Dec. 2022

Main points of Discussion:

- Livelihood training and methodology of training and handholding process for livelihood restoration

CONSULTANTS FOR RURAL AREA DEVELOPMENT LINKED

Regd. Office: C/258, Road No. 1C, Ashok Nagar, Ranchi – 834002, Jharkhand
Phone: 0651-2243102, Email : cradle_ran@yahoo.com

Synopsis of the Meeting:

As per the program the team reached Langku, the PAPA representative and 5 village headmen and local youths presented in the meeting.

The team leader address the gathering and informed about the project livelihood components and explained about the livelihood plan. Explained about the training institute which is under Dima Hasao council informed about that so far preliminary discussion is on process with the APGCL for final approval of the livelihood plan which is on process of final approval.

The communication specialist also explained the final process of livelihood training and admission process in the training institute. She informed about the so far discussion with the Project Director and Social safeguard consultant, APGCL meeting with the CEO of FSSI and agreed on the plan and the process of training . During the meeting the program manager of FSSI (Training provider) was introduced with the headman and PAPA president.

He explained the training process, trade available and facilities available in the institute and invited the village headman to visit the institute.

During the discussion the headmen and PAPA representative and president was appreciated the training plan and agreed for cooperation in mobilizing the youths. Regarding the admission process PAPAs ID card is must , that information was shared with the PAPs and Village headmen, in this regards many different views were coming from the group. Some people raised the demarcation of submerge area is the cause for which pAPs who already received the R&R assistance are not angered to sign the ID card.

All queries were addressed during the meeting.

Table 5: Entitlement Matrix

Category	Type of Impact	Entitlements	Institution (s) Responsible to Deliver	Remarks
Part 1. Compensation for land losses including crops and trees – For all Affected Households				
Patta Land (Registered, long-term leased land)	- Loss of paddy land - Loss of land with valuable spice plants	1. Compensation rates proposed by ADC and agreed with GoA and the leaseholders (APs). 2. <i>Jirat</i> values ⁴⁵ assigned by ADC to land and agreed by GoA, APGCL, and leaseholders (APs) 3. Fresh land leaseholds in nearby areas on priority basis as per ADC's regulations.	APGCL and ADC Revenue Officer of ADC	1. Compensation payment by the two ADCs, supervised by a committed comprising representatives of PAPA, APGCL and ADC 2. Payment by online transfer or check written in head of family or leaseholder's name. ⁴⁶ 3. <i>Gaon bura</i> in each affected community will in consultation with ADC will allocate fresh land on leasehold to those who are fully or partially displaced.

Assam Power Generation Corporation Limited
Relocation Plan for two religious places
Implementation of CRTDP

The proposed LKHEP will generate 120 MW power. The project is in the Karbi Anglong and Dima Hasao Autonomous districts. The dam of LKHEP will be constructed in the vicinity of the Longku Village. The total land area required for the project is 1577 ha. Under district Dima Hasao total 1387 ha (478 ha Forest land & 909 ha revenue land) land covering 15 Village has been acquired. Majority of the population in the project area is Karbi's followed by Dimasa and Nepalis, Boro and other community.

1) Impacts on Common / Government Properties in 120 MW LKHEP

As per the CRTDP plan total 7 Community including government properties were identified as affected due to the 120 MW LKHEP.

Sl. No.	Name of the Affected Property as per the CRTDP
1	Karbi Community Hall of Longku Area C/o Mr Bida Ssing Engti, Secretary
2	S.M.E School, C/o Mr Balendra warisa, President
3	Irrigation Office Building
4	Secretary (Garampani LAMP Cooperative Society)
5	Gram Sewak Quarter
6	Rural Bank
7	PHE Pump House

However, the finalization of the actual affected CPRs will be done after the demarcation of affected area survey by APGCL/Council jointly.

Apart from these 7 CPRs, 2 additional CPRs those are basically religious places, which are annual worship places has been noted with the help of community and President LKPAPA.

- (I) *"Vothung Rongker" Annual Worship Place of Karbi Community and*
- (II) *"Longri Rongker" i.e., Tiger (Cheeta) Puja near Longku Nala/Bridge.*

Brief Description of the Religious Places:

Introduction

Karbis, earlier known as Mikir, is a major important ethnic group of Assam in Northeast India especially in the hill areas of Assam. The Karbis are the primary inhabitants of the Karbi Anglong district. They are also found in North Kachar district, Kamrup, Nagaon and Sonitpur districts of Assam.

Basically, the puja is organised for the welfare of the people and community. All the Gods and Goddesses are prayed to so that the community lives in peace,". Usually, the ritual is observed in the beginning of the year for peace, prosperity and a good harvest in the village by

propitiating the deities. The 'kurusar' (priest) performs prayers and offers animal sacrifice to appease the Karbi deities and seek their blessings for the welfare of the village and its protection from evil entities and natural calamities.

The community believes that non-observance of the ritual will invite misfortune upon the village and its inhabitants. It is a yearly religious festival of the Karbis which is performed by every village. Every Karbi village has an *allotted place* for performing Rongker.

Activities

Main reason behind the celebration of the festival is to make people free from all the diseases and natural calamities throughout the year.

Rituals of Rongker

There are ten earthen alters installed against in the eastern side of the site where the festival is supposed to be held. They are kept in a row that faces the south-north direction.

This festival lasts for three days. The villagers contribute to cash and kind to meet the expenses of the rituals. The festival can be categorized into four parts:

Sadi is a process where all the deities are invoked.

Karkli In this ritual the deities are worshipped in two manners - Kibo-kaba, offering meals to the deities and Koia-abida, offering areca-nut and betel leaves to the deities. All the men take part in the festival. The main rituals are performed by the main priest who is assisted by other religious specialists, the village headman. A feast is organized when the ritual is over.

Rongphu-Rongling-Kangthin This ritual is performed at the night of the second day of the festival. The evil spirits are driven out from the lower to the upper part of the village by dancing. At the end of the village road an altar is made where a chicken is sacrificed in the name of a deity.

Langhe Rongker is the concluding part of the festival which is observed at the third day of the festival. It is performed near a ghat (Longku Nala and Kopili) by making alter and sacrificing a cock in the name of the tiger god.

Activities performed during the Rongker

Some activities are not to be performed during this period like: Husking, female folk is not supposed to participate, no agricultural activities, no villager is allowed to depart the village. During this festival twelve deities are worshipped. They are Longri sarpo, Hemphoo, Mukrang, Rosingja, Bamun, Ningding Sarpo, Rit-Anglong, Than, Murti, Arlock, Kuthepi and Theng.

- 1) *Traditional Dance performance like Ritnong chingdi, Nimso kerung, Hacha kekan, Chong kedam*
- 2) *Display of Indigenous games*
- 3) *National and regional musical entertainment*
- 4) *Cultural performances from neighboring states*

Though this task should be performed by CRTDP Implementation NGO engaged, but Social and Resettlement Expert of PMC has directed to prepare the completed relocation plan and submit the same to Competent Authority APGCL and onward to ADB for concurrence.

Accordingly, Social Expert has initiated the discussion with concerned community and following report has been prepared. The estimated budget has been given in CRTDP for smooth relocation of these CPRs. The relocation plan needs to execute following activities till the final handing over both the worship places to the Karbi Community. These are:

Activity No.	Activity	Responsibility/ support	Status/Remarks
1.	Identification of new worship place	Karbi Community President Karbi Community Office bearers of LKPAPA	<ul style="list-style-type: none"> ➤ The relocation site for annual worship has been identified on 26th August 2022 ➤ A meeting was held, and resolution passed for performing the basic activities. ➤ Copy of MoM, Photos and attendance sheet is attached as Annexure-1.
2.	Karbi Community Meeting to approve/ accept approve the identified site	President NIMRIM Committee of Karbi Community Gaon Bura's of Karbi affected project villages	<ul style="list-style-type: none"> ➤ Karbi Community leaders meeting held on 13th February 2023 ➤ Copy of MoM and attendance sheet, Photos is attached as Annexure-2.
3.	Letter to Council for concurrence of land area proposed for Worship place	President LKHEPPAPA and NIMRIM Committee of Karbi Community	<ul style="list-style-type: none"> ➤ 20th Feb 2023, Annexure-3 ➤ Follow-up by PMC to Council office ➤ Lot Patowari has visited the proposed site and placed recommendation to Council ➤ Advisor
4.	Origination of Coordination / Facilitation Committee to finalize the proposes submitted by the Karbi Community	NGO APGCL	<ul style="list-style-type: none"> ➤ Tentative date: by 15th March 2023, ➤ Approval/ recommendation would be included in MoM ➤ Further tentative timeline to completion of the civil work required
5.	Approval from Competent Authority, APGCL	The proposal needs to be reviewed Estimated value need to be fixed in view of the unforeseen impacts, the budget should be estimated	TBD
6.	Identification of	The civil work needs a	TBD

Activity No.	Activity	Responsibility/ support	Status/Remarks
	contractor	competent contractor to complete the activities approved by APGCL Existing civil contractors from package 2 or package 4 may also be given as variations	
7.	Special worship for developed worship place	Karbi Community leader and Gaon Buras of affected Karbi Community villages	TBD
8.	Appraisal in Semi-Annual Social Monitoring Report	APGCL in support of PMC	Task completed

Meeting with GM, Lanka APGCL, PMC Social Expert with the Revenue Secretary, Dima Hasao – in follow-up of the matter, GM Lanka along with the Social and Resettlement Expert, PMC has met with the Advisor, Revenue and Joint Secretary, Dima Hasao at Haflong on 21st Feb 2023. Official from Council has assured that they will look into the matter and reply on the requisition received from the President, LKHEPPAPA. GM, APGCL assured every help to expedite the matter. Earlier on 20th Feb 2023, Lot Patowari and the Advisor, Revenue (ex-Revenue Secretary) visited the Longlu and reviewed all the issues and took stock of progress towards the CRTDP implementation.

The No Objection Certificate from the Council in connection with the Karbi worship place has also been obtained copy of the same is attached as annexure-4

Tasks of the Assignment (CPR relocation) as per CRTDP report

The implementation of the CRTDP entails the following tasks while dealing the common and government properties (CPRs):

- Detailed and meaningful consultation with the concerned department, custodian, community and concerned Gaon Bura along with PAPA office bearers.
- Ensuring that the property has been evaluated and all the entitlements as per CRTDP applied.
- Assisting in counseling, and coordination with the concerned authorities.

Provisions for CPR relocation in approved Entitlement Matrix/CRTDP – Combined Resettlement and Tribal Development Plan (CRTDP) – RIPP Volume1 Entitlement Matrix, Page-57: the following provision have been concluded in the CRTDP, however, there was no budget has been considered in the Budget *Chapter number 11*.

Thus, to execute the relocation of both the worship places, needs estimated budget according to the community proposal.

Category	Type of Impact	Entitlements	Institution (s) Responsible to Deliver	Remarks
Public Facilities	Loss of public infrastructure facilities	<ol style="list-style-type: none"> 1. Piped water supply 2. Sanitation and drainage 3. Health care centre 4. Higher secondary school 5. Playground 	APGCL, relevant ADC departments	Consult the community on location, type, and cost of facility reconstruction APGCL will pay for the construction of the facilities
Common property	Loss of common land	<ol style="list-style-type: none"> 1. Community land for public purposes at the relocation site 2. Grazing rights on nearby land or an allowance to buy fodder in lieu of the lost grazing land. If not provided, 100 days of Minimum Assured Wages (MAW) per year for 05 years as a grant towards the loss of fuel and fodder 	APGCL, relevant ADC departments	Consult the affected households and PAPA on the location, type, cost estimates of facilities

MoM and Attendance during the Identification of new Rongker Worship Place

A meeting was conducted by the "NIMRIM"⁹⁸ Committee. Present Sharply at 11:00 A.M on 26th Aug 2022 On the Spot of Vothung. Rongker:

Following Person has been present on this day:-

Requisition letter to The Revenue Secretary, Dima Hasao for sanctioning of Land parcel for relocation

To

The Secretary Revenue,

NCHAC, Dima Hasao, Halflong.

Subject: Relocation of 'Vothung Rongker' and 'Longri Rongker' sites from Longku nala to the Tortelangso Villager area

Respected Sir,

With reference to the subject cited above, we have the honour to draw the kind attention that the exiting worship site, we the villagers of Karbi Community offering the worship in the past 100 years.

We believe that the both the places are very crucial and without proper declaration of another site for worship, we would not be able to continue this, Puja. As it has clear that the existing bridge of Longku Nala will be submerged, hence these both places will also be submerged in the reservoir.

It is therefore, NIMRIM committee willingly accepted the proposal of shifting this place to another location. The next location is in the area of Tortelangso village, and the total measurement of the proposed site is 2 bigha. This location is close to a water stream and very useful for both the Puja in similar and faithful manner. In this connection there were 2 meetings have been held and the proposed area have also been cleaned.

The NIMRIM committee immensely request you to please consider the request and allot the land of 2 bigha land.

Thank you

Regards

President
20/02/23

MINUTES OF THE MEETING OF GRC TIER-II, HELD ON 29TH AUGUST 2022

The meeting was presided by Er. Dilip Kumar Das, GM, LKHEP and Chairman of Grievance Redressal Committee, Tier II of Lower Kopili Hydro Electric Project, 120 MW held at Engineers Hostel, APGCL, Longku, Dima Hasao. At the onset all the members were welcomed by the chairman and highlighted the objectives of the meeting and briefly presented the summary statement of the tier-II grievances.

Summary statement of Grievances

Sl. No.	Particulars	Area/No		Remarks
1	Total Land required for LKHEP Project in Dima Hasao district	909	Ha	<i>No of persons 1376 have already received their respective compensation amount</i>
2	Total Compensation paid	909	Ha	
3	Amount of Compensation of land and assets	45	Cr	
4	Total Grievances lodged till date	402	No	<i>officially submitted to council for review and suggestions</i>
		338	Ha	
a)	compensation has been paid to any one of the family members	231	No	<i>as per payment records of APGCL</i>
		234	Ha	
b)	Spot couldn't verify (council's observations)	12	No	<i>observations and comments received from Patwari (Council)</i>
		7	Ha	
c)	to be verified (council's observations)	159	No	
		97	Ha	

After threadbare discussion with the members present in the meeting the following resolutions were taken:

1. At first, the committee viewed the village wise shortlisted grievances lodged, and it has been observed that after receipt of the payment by any of the family members, another member of that family logged a complaint before GRC for payment of the land compensation. The committee decided to close those 231 grievances, as the payment has already been received, which have been confirmed through the compensation payment list of APGCL.
2. Apart from these 231 grievances, another 12 nos of grievances for which the land location could not verified by the Revenue authorities of Dima Hasao, were also closed
3. Regarding remaining 159 nos grievances, Revenue Department Dima Hasao agreed to verify those complaints very shortly and submit the report within 15 days i.e., by 15th

September 2022 as stated by Sri Ritesh Thousan, who has been authorised representative of Secretary Revenue, NCHAC.

4. The Secretary, PAPA and Member Second Tier-II GRC, agreed that the complainants who had already received land compensation should be dissuaded from claiming further compensation and their claims should be closed without further discussion on the matter. He also highlighted there may be few cases where compensation may still be pending and requested the committee to intervene into the genuine cases. Further he placed his own grievance where a plot of land is yet to be assessed and compensation in the case is still due. The committee requested him to submit his case in writing to the council authorities and mark a copy to the GM, Longku LKHEP.
5. The President, LKPAPA raised before the committee above non-inclusion of several affected persons numbering approximately 46, who were yet to be included in the beneficiary list, though the representation in the matter was placed and brought to the notice of APGCL. He further emphasised that until the submergence area is demarcated on ground based on FRL these apprehensions regarding inundation among the affected villagers will remain. The Chairman of the Committee assured to initiate necessary action in this regard.
6. The GRC committee assured to follow up with Council Revenue Department regarding detail / complete survey of the allotted 909 Ha by a Government Agency which was agreed upon in one of the meetings held on 15th November 2021.
7. Photos and Attendance sheets are enclosed of GRC members and other participants who has witness the GRC Meeting.

Apart from GRC following additional points were also brought to the notice of the committee by the President & Secretary of LKPAPA and following were resolute:

- (i) For smooth implementation of CRTDP, its suggested to establish a fully functional office of NGO at Longku. In this regard, Sri L.P. Singh, Social Expert NGO, agreed to the suggestion of the LKPAPA and assured establishment of the office by 7th September 2022.
- (ii) the President & Secretary of LKPAPA also suggested, the available accommodations at village Longku, which may be considered for the office purposes.

Meeting ended with vote of thanks.

Topic: Review of CRTDP, JFPR & External Monitoring works under 120MW Lower Kopili Hydro Electric Project

4306
13/10/22

A review meeting was held on 11.10.2022 in the 3rd Floor Chairman's Conference Hall, Bijulee Bhawan, Paltan Bazar, Ghy – 01 to discuss the CRTDP, JFPR & External Monitoring works under 120 MW Lower Kopili Hydro Electric Project. Shri Sanjeeva Kumar, Chairman, APGCL chaired the meeting.

Members Present: Annexure - A

During the meeting the following points were discussed and recorded for action:

1. Status of works under CRTDP:

A ppt on the status of the works and progress summary of works was presented by NGO (M/s Cradle & GUS).

(i) The meeting was briefed about the survey data of Project Affected Persons (PAPs) & Project Affected Families (PAFs) of Karbi Anglong and Dima Hasao District. The meeting noted the slow progress of the survey works. It was decided that the Socio-Economic Survey in all aspects and identification & verification of PAFs should be completed by October 2022.

Action: NGO M/s Cradle, PMC, Social Expert APGCL

(ii) The meeting was informed about the non-compliance of certain contract scopes & clauses by the NGO. The meeting decided that the Project Director LKHEP will write a letter to NGO regarding the non-compliances w.r.t the contract agreement. It was also decided that NGO will set up their designated office at project site with immediate effect by the end of October 2022 as per the contract agreement.

Action: CGM PP&I, APGCL, NGO M/s Cradle, Social Expert APGCL

(iii) The meeting decided that NGO will report all the data of surveys completed till date through official correspondence. Finalization process of all micro plan should be immediately started through joint discussion between NGO, PMC & APGCL and it was decided that the same will be completed by 7th November, 2022. It was also decided that CRTDP plan should be finalized and submitted to ADB by Social Expert APGCL within October 2022.

Action: CGM PP&I, APGCL, NGO M/s Cradle, Social Expert APGCL, PMC

(iv) The meeting decided that Co-ordination Committee should be formed with immediate effect as per the requirement of the contract agreement and meetings should be conducted every month. The Co-ordination Committee should be headed by CGM (PP&I) APGCL.

Action: CGM PP&I, APGCL

(v) The meeting was apprised about the presence of Common Property Resources (CPRs) in the project area. It was decided that GM LKHEP will arrange a joint survey cum verification of the CPRs along with PMC, NGO and concerned Council authorities. GM LKHEP will correspond to the respective council regarding the

submergence/non-submergence of the CPRs and request for inclusion or deletion from the list of CPRs.

Action: GM LKHEP, Social Expert APGCL, PMC, NGO M/s Cradle

- (vi) The meeting was apprised about the present Grievance Re-addressal mechanism in the project site. It was decided that Nodal Officer from the respective council should also be included in the Grievance Re-addressal Committee. It was decided that initiative should be taken to resolve the grievances within one month depending on the criticality of the grievance.

Action: CGM PP&I APGCL, GM LKHEP, Social Expert APGCL, PMC, NGO M/s Cradle

- (vii) The meeting decided that a Facilitation Committee at site should also be formed as per the contract agreement comprising officials of APGCL, NGO and PMC.

Action: CGM PP&I APGCL, GM LKHEP, NGO M/s Cradle, Social Expert APGCL, PMC

- (viii) The meeting was apprised about the proposal of livelihood plan of the Project affected people. It was decided that a schedule should be drawn on the livelihood plan within one month by NGO in consultation with Social Expert APGCL & PMC. It was also decided that actual implementation of the micro plan along with skill training should be started by January 2023 in consultation with the institutes. Towards this all the micro plans of both Karbi Anglong and Dima Hasao should be completed by the NGO, by middle of November month.

Action: CGM PP&I APGCL, NGO M/s Cradle, Social Expert APGCL, PMC

- (ix) It was decided that monthly progress report of the NGO should also be submitted to the Office of the Chairman APGCL.

Action: CGM PP&I APGCL, NGO M/s Cradle, Social Expert APGCL

- (x) The meeting viewed with concern the inordinate delay in the issue of the Identity cards to the Project Affected Families. It was decided that PAF in Dima Hasao should be persuaded to sign and accept the identity cards through positive communication & door to door visits. It was decided that verification of the PAFs and issue of identity cards in Karbi Anglong district should be done before disbursement of the R&R assistance.

Action: CGM PP&I APGCL, NGO M/s Cradle, Social Expert APGCL

- (xi) It was also decided that needful changes & updating of the monthly progress report should be done as per the format and continued regularly.

Action: NGO M/s Cradle, PMC

2. **Japan Fund for Prosperous and Resilient Asia & Pacific (JFPR):** A brief ppt was made on JFPR where scope of works time duration & contract amount (INR 15.52 Cr excluding taxes) was presented. It was informed that contract signing is expected after No Objection Certificated from ADB.
3. **External Monitoring works of LKHEP:** A ppt was presented on the External Monitoring works of LKHEP. It was informed that External Monitoring works has been started with two nos. of field visits. It was decided that a copy of inception report is to be submitted to the Office of the Chairman, APGCL

4. The meeting ended with a vote of thanks from the chair.

- 2) Day – 1 (Evening): Dated: 23.09.2022, Venue: Krungmenlangso L.P School, District: Dima Hasao, Assam

The programme started as per scheduled on day one dated 23.09.2022 at Longku High School at Longku, registration/attendance was collected by Mr. Karuna Bora, field Coordinator as per prescribe attendance format. The whole awareness programme was anchored by Mrs. Sumana Das Communication Specialist, and the programme started with a welcome addressed by the Headmaster of the Longku High School Mr. Ganesh Shyam Chetry and the communication Specialist gave the introduction of all the officials' presents from the APGCL, CRADLE, Resource person etc.

On the occasion

Mrs. Rita Boro, Engineer and Gender Focal Person, APGCL delivered her session on the APGCL, CRTDP and of LKHEP with focus on gender action plan of the project emphasizing on Health and Hygiene for Girls students and sensitized all girls about nutritional health, girls hygiene, and specially menstrual hygiene with safe disposal. She advised the students for a healthy menstrual hygiene, cause safe motherhood which could develop a healthy Society for all round development.

Mr. Pankaj Hazarika, Social Safeguard Specialist, PMU delivered his session on the awareness of the LKHEP and implementation of CRTDP citing reference of before project intervention, project implementation ongoing progress . Mr. Hazarika also highlighted the Asian Development Bank (ADB) 's aims and objectives, special regards on ADB gender policies, Health and hygiene, Health constraints due to Covid 19 etc. also suggested for healthy and regular habit in maintenance of personal and physical hygiene.

Mr. Sangram Singh, Social Safeguard Consultant, PMC took a session on various project component and on APGCL, ADB, LKHEP, CRTDP etc. he also focus on the development taking place due to the LKHEP such as roads, communication, transportation etc. and with the improved of roads and increased of traffic he highlighted the on roads safety measures, Health, livelihood aspects etc.

Mrs. Sumana Das, Communication Specialist took a session on Health and Hygiene for Girls students sensitized in health (nutrition), hygiene, menstrual hygiene and safe disposal practices as part of implementation of Gender Action Plan (GAP) activities at Lower Kopili Hydroelectric Project (LKHEP). She discussed on ADB's Gender Action Plan, gender equality and Healthy lifestyle by focusing personal hygiene and environmental hygiene. Personal hygiene is most important in daily life such as regular brushing, bathing, washing, washing of cloths etc. and maintenance of environmental hygiene such as free from contaminated water, clean surrounding, Clean rooms, clean socialization etc.

Folloed by the Resource Person Mrs. Bistley Timungpi, ANM, of CHC, Assam along with Mrs. Kale Ronghangpi ASHA from Longku CHC, took a session on Health and Hygiene for Girls students sensitized in health (nutrition), hygiene, menstrual hygiene and safe disposal practices. She discussed on Menstrual Health and Sanitation, the parts of body related to menstrual health and the importance of maintaining hygienic, the period of cycles and duration, the problems related to menstrual health, discuss the tribal practice related with social taboos, family and issues considering the menstrual period, and was also discussed on important of women health as one of the major concern for the society. She explained the disease among women is due to unhygienic health condition, proper knowledge on health and hygiene ensures proper sanitation which determines prosperity in a society.

Girls were participated and sharing their troubles during the monthly menstruation, the nurse was helping them by explaining how to take care of proper food and cleanliness during the days and throughout, because proper nutritional food has also one of the major important role for adolescent girls. So she advised all the girls as per their problems. She also explained safe disposal of sanitary napkins.

The programme session ended with vote of thanks by the programme facilitator.

The total participants in the program was 79 girls . apart from that lady teachers were also participated.
